

Lenovo launched 2 laptops priced from 21-30 million VND

Both Lenovo's ThinkPad X230 and ThinkPad T430 laptops, which were launched on September 4, 2012, are designed specifically for mobile needs so they are not affordable.

Both Lenovo's ThinkPad X230 and ThinkPad T430 laptops, which were launched on September 4, 2012, are designed specifically for mobile needs so they are not affordable.

Lenovo ThinkPad X230

Aiming at business users who are always on the move, the ThinkPad X230 is small in size, weighing less than 1.4kg, designed scientifically with the option of the Precision Backlit keyboard very convenient. Super bright, 12.5-inch, 300 nit IPS widescreen display. In particular, this model is also integrated with 4G broadband option to provide fast wireless connectivity.

As for the ThinkPad T430, users can work non-stop with a battery life of up to 30 hours (depending on the configuration of the device), and at the highest performance thanks to NVIDIA® discrete graphics card. (option). As the best-selling and most popular product line, the T430 has a compact design that has powerful mobility and performance features including USB 3.0, Lenovo RapidCharge (fast charging technology) and customization. Select 4G mobile broadband connection.

Lenovo ThinkPad T430.

Both Lenovo's new models are equipped with powerful security features to ensure users have complete peace of mind when using them, including self-encrypting drives to protect data on hard drives. In case of loss or theft, Hardware Password Manager centralizes management of any self-encrypted drive, Fingerprint Reader fingerprint reader allows logging only with finger scanning, BIOS Port Lock to disable all both remote input and output ports without hardware impact and USB blocking feature to identify and prevent different types of USB devices are connected to the system.

Equipped with the latest generation Intel® Core™ processor and Lenovo Enhanced Experience 3.0 optimization software (EE3 with SSD and RapidBoot technology), these new models have fast boot times. 40% more than a regular Windows® 7 computer.

The ThinkPad X230 and T430 are now available, and are ready to receive orders (according to the desired configuration) through Lenovo's official business partners in Vietnam. The price of the ThinkPad X230 and T430 is expected to range from 21 million to 30 million depending on the configuration, along with an on-site (optional) warranty that lasts for 3 years.
