

Lenovo launched a new laptop model in Vietnam market

That's ThinkPad Edge - the first ThinkPad line using AMD's VISION Pro technology, and the ThinkPad X100e - a professional-class ultraportable notebook

That's ThinkPad Edge - the first ThinkPad line to use VISION Pro technology from AMD, and the ThinkPad X100e - the company's first professionally portable ultraportable notebook with a starting price of less than 500 USD .

The ThinkPad Edge models bring a completely new look, compact, well-proportioned and impressive but still ensure the sustainability and reliability of the ThinkPad brand. For example, the new models are equipped with a waterproof keyboard, which integrates the popular ThinkVantage technology such as Active Protection System, Rescue and Recovery.

Overall, these new models are a mixture of emotional design and ease of use in many new ways: modern keyboard, wider Touchpad and more color options.

Meanwhile, the ThinkPad X100e is a mix of professional performance, utility and design with a wide selection of colors and extremely attractive prices. The X100e also marks the first time Lenovo and AMD have cooperated

to bring AMD processors into the ThinkPad line and use AMD's VisionPro brand.

The Thinkpad X100e excelled in areas important to business users, demonstrated by professional features, excellent usability and outstanding mobility. It has many professional features, beautiful design, excellent performance, and outstanding mobility.

In terms of prices, 13-inch ThinkPad Edge models will appear in Vietnam market by the end of February 2010 with a starting price of about VND 15,000,000 (excluding VAT) through Lenovo's business partners and at www.lenovo.com page. 14 and 15 inch models will be available at the beginning of the second quarter of 2010.
