

Lenovo launched a new series of laptops

On January 5, Lenovo officially announced 11 new IdeaPad notebooks and IdeaCentre desktops at the International Consumer Electronics Show 2010

On January 5, Lenovo officially announced 11 new IdeaPad and IdeaCentre notebooks at the International Consumer Electronics Show in Las Vegas, USA.

New models include: IdeaPad notebooks - S10-3t, S10-3, Y460, Y560, G460, G560, V460 and V360, and IdeaCentre desktops - A300, C310 and K320, with their own design and work Top technology enhances performance, variety of entertainment features, impressive design for Lenovo's personal user line.

The thinnest 'all in one' PC: IdeaCentre A300

With its elegant design, hiding the power of an internal computer, the A300 is only 18.5mm thick with a 21.5-inch high-resolution LED display. The device is equipped with Intel Core 2 Duo processor, Bluetooth wireless keyboard, wireless mouse, HDMI connector, Wi-Fi high-speed 802.11n, Lenovo Rescue System software to help quickly and easily Recover data if a document is lost or damaged.

New generation Netbook: IdeaPad S10-3t and S10-3

IdeaPad S10-3t

IdeaPad S10-3

Two new netbook models from Lenovo IdeaPad S10-3t and S10-3 are a combination of mobility, stylish design, and leading technologies that help create a new wind in the netbook category. The S10-3t is the first multi-touch panel swivel netbook model, which means it is integrated with Lenovo NaturalTouch touch-screen technology instead of touch-sensitive technology, creating an optimal user experience.

Laptop entertainment: IdeaPad Y460, Y560

IdeaPad Y460

IdeaPad Y560

2 laptops that favor multimedia entertainment Y460 14 inch and 15.6 inch Y560 along with 16: 9 wide HD screen are ideal for users who desire to have mobile entertainment experience high class. Y460 and Y560 are integrated with JBL's design speakers along with Dolby Home Theater stereo systems - great for enjoying music and watching movies.

Lenovo's first multi-touch PC: Lenovo C310

C310 includes a high-resolution 20-inch (HD) screen, 16: 9 ratio, which provides great support for high-quality multimedia display, while Lenovo NaturalTouch Panel touch screen technology helps to carry more interactive and flexible experience. The power of the device lies in Intel Atom 330 Dual Core processor, memory up to 4GB, removable screen card and ATI Mobility Radeon HD 4530 card 512MB, thus C310 becomes an ideal device to enjoy the suite movies, music, or games anywhere in your home.

High-performance gaming machine: IdeaCentre K320

K320 uses Intel Core i7 processor with Intel Turbo Boost Technology, dedicated screen cards (on selected models) such as ATI Radeon™ HD5970 2GB, and hard drive can configure up to 2 RAID drives . K320 allows users to experience great in high-performance multimedia programs, with DDR3 memory up to 8GB, HDD 1TB HDD, and just a button you can backup quickly data from USB drive to the computer's hard drive.

Reasonable laptop price: Lenovo G460 and G560

G460 and G560 are the latest additions to the company's Idea line of products for affordable consumers. G460 and G560 have powerful computing capabilities with the upcoming Intel Core processor with Intel Turbo Boost Technology, DDR3 memory up to 8GB, 500GB hard drive. The two new models have a wide-screen 14 inch (G460) and 15.6 inch (G560) 16: 9, HD, LED technology.
