In order to optimize mobility, U260 is equipped with ULV Core i3 / i5 low-voltage processor, 4-cell battery option with the manufacturer's battery life of 4 hours continuously. In addition, it also has 4GB of RAM and a 320GB hard drive. U260 has no optical drive.

IdeaPad U260 fully supports common ports such as HDMI, VGA, USB 2.0 with connectivity like Wi-Fi standard n and Bluetooth.

U260 has two color options including brown and orange. Prices for this version have not been disclosed but according to Thinkpads, the number will be in the range of 1,000 USD.
