

Lenovo upgraded ThinkPad T, L and W series

New Lenovo models add Core i 2011 processor options, new graphics cards and promises of up to 30 hours of battery life on the T420 model.

New Lenovo models add Core i 2011 processor options, new graphics cards and promises of up to 30 hours of battery life on the T420 model.

The new **ThinkPad T series** includes the **T420** , **T420s** and **T520 trio** with the second-generation Core i5 and i7 processors along with some improvements in battery life and boot time. The 1.8 kg T420s introduced introduced boots up to 30% faster than before. Meanwhile, the **T420** can use batteries up to 30 hours after each charge with the included 9-cell battery. Like previous **T410** models, the new models still integrate Nvidia Optimus graphics with fresh GeForce 4200M cards with 1GB VRAM capacity.

T series consists of 3 versions.

The ThinkPad T420s starts at \$ 1,329, the **T420** is \$ 779 and the final model **T520** will cost from \$ 909 (reference price in the US market).

The L series is quite configurable.

Not as light-weight as the T series, but the new **L series** models are also quite well configured. This model includes L420 14-inch screen, L520 15.6-inch screen all have the option of Core I processor 2011 i5 or i7, 8GB maximum RAM and discrete graphics ATI Radeon HD 565. In addition Also, users have the option of a hard drive standard that mSATA SSD with 80GB capacity. The 14-inch model will only have a resolution of 1,366 x 768 pixels while the 15.6-inch version will have a maximum resolution of 1,600 x 900 pixels.

Both L420 and L520 models are priced at only 719 USD.

W series for general users.

In addition to the two models for the general consumer, Lenovo also introduced the **ThinkPad W520** workstation model. This model has a very strong configuration with Core i5 or i7 processors (including four-core Core i7 chips), NVIDIA Fermi Quadro 100M or 2000M graphics cards with 2GB VRAM. Other specifications for this model include a 15-inch screen, USB 3.0 port, and a 160GB SSD.

The Lenovo **ThinkPad W520** will cost from \$ 1,329.

All of Lenovo's new models will start selling from the end of March.
