

Lesson 14: Spinner in Bootstrap 5

What is a Spinner in Bootstrap 5? How do you use a Spinner in Bootstrap 5? Let's find out together with TipsMake.com!

What is a **Spinner in Bootstrap 5** ? How do you use a **Spinner in Bootstrap 5** ? Let's find out together with **TipsMake.com!**

Simply put, spinners are icons that display the loading status on websites, applications, etc. Spinners in Bootstrap 5 are developed entirely using CSS and HTML and do not require JavaScript.

However, you will need some custom JavaScript to convert their visibility. Their appearance, alignment, and size are all easily customizable using utility classes.

How to create a spinner in Bootstrap 5

To create a spinner or loading button, use the class `.spinner-border`:

For example:

Ví dụ Bootstrap

Spinners at TipsMake.com

To create page load states in QuanTriMang, use the class `.spinner-border`:

Spinners trong Quản Trị Mạng

Để tạo trạng thái tải trang trong QuanTriMang, dùng class `.spinner-border`:

Colorful Spinner

Use any text coloring utility to add color to your desired spinner.

For example:

Ví d? Bootstrap

Colorful spinners on QuanTriMang.com

Use any **text coloring utility** to color the spinner:

Spinner màu trên QuanTriMang.com

Dùng bất kỳ **tiện ích màu văn bản** để tô màu cho spinner:

Spinner gets bigger

Use a class `.spinner-grow` if you want the spinner/load button to gradually grow larger instead of just spinning:

Ví d? Bootstrap

Spinner gets bigger on QTM

Use a class `.spinner-grow` if you want the loading state to be a gradually growing circle instead of just a spinning circle as on TipsMake.com:

Spinner to dần trên QTM

Dùng class `.spinner-grow` nếu muốn trạng thái tải là nút tròn lớn dần thay vì chỉ xoay tròn trên Quantrimang.com:

Spinner Size

Use `.spinner-border-sm` `.spinner-grow-sm` to create a smaller spinner.

For example:

Spinner size

Use `.spinner-border-sm` or `.spinner-grow-sm` to create a smaller spinner on TipsMake.com:

Kích thước spinner

Dùng `.spinner-border-sm` hoặc `.spinner-grow-sm` để tạo spinner nhỏ hơn trên Quantrimang.com:

Spinner buttons

You can also add a spinner to a button with or without text:

Bootstrap Example

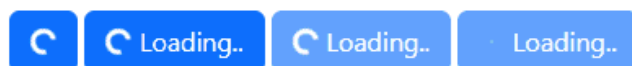

Button-operated spinner

Add spinners to your buttons on TipsMake.com:

Spinner dạng nút bấm

Thêm spinner vào các nút bấm trên Quantrimang.com:

Above are the **ways to create spinners in Bootstrap 5**. Compared to creating a progress bar using Bootstrap 5, the process of coding status buttons for a website or application is much simpler, isn't it?
