

Lesson 32: Selection Menus in Bootstrap 5

Bootstrap 5 will help you add features or redesign selection boxes for your website. Here's how to create a selection menu in Bootstrap 5.

Bootstrap 5 will help you add features or redesign selection boxes for your website. Here's **how to create a selection menu in Bootstrap 5**.

Menu selection

A selection menu is used if you want to give the user multiple different options. To style a selection menu in Bootstrap 5, add the class `.form-select` to the element . For example:

Bootstrap Example

Menu selection on TipsMake.com.com

Danh sách lựa chọn (chọn một):

chọn (giữ phím Shift để chọn nhiều hơn):

Submit

Menu lựa chọn trên Quantrimang.com

Danh sách lựa chọn (chọn một):

Danh sách nhiều lựa chọn (giữ phím Shift để chọn nhiều hơn):

Submit

Menu size selection

Use classes `.form-select-lg` or `.form-select-sm` to resize the selection menu.

For example:

Bootstrap Example

Menu size selection

Use `.form-select-lg` or `.form-select-sm` to resize the selection menu:

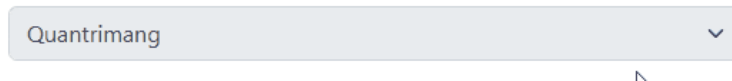

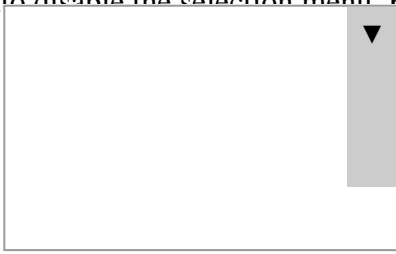

Kích thước menu lựa chọn

Dùng `.form-select-lg` hoặc `.form-select-sm` để thay đổi kích thước menu lựa chọn:

Disable the selection menu.

Use properties disabled to disable the selection menu. For example:

Bootstrap Example

As you can see, you cannot open the selection menu by clicking because it has been disabled.

Data list

Bootstrap 5 will also style data lists. It lists a list of predefined options for an element . For example:

Bootstrap Example

Data list

L? a ch? n m? t trang web t? danh sách:

Submit

Danh sách dữ liệu

Lựa chọn một trang web từ danh sách:

Submit

Above is how to create a selection menu using Bootstrap 5. As you can see, diversifying the selection menu in Bootstrap 5 is quite flexible and easy. Hopefully, this Bootstrap 5 lesson is useful to you.
