

Lesson 33: Checkboxes and Radio Buttons in Bootstrap 5

Checkboxes and radio buttons are two useful components when building list items on a website. Below is how to create checkboxes and radio buttons in Bootstrap 5.

Checkboxes and radio buttons are two useful components when building list items on a website. Below is **how to create checkboxes and radio buttons in Bootstrap 5**.

Checkbox

Checkboxes are commonly used if you want the user to select any number from a given list of options.

Sample code:

```
Option 1
```

Detailed explanation:

To style checkboxes, use the 'wrapper' element with **the class="form-check"** to ensure proper alignment for labels and checkboxes.

Next, add the class `.form-check-label` to the label element, and `.form-check-input` format the checkbox appropriately inside the container `.form-check`.

Use the attribute `checked` if you want that checkbox to be checked by default.

For example:

```
Bootstrap Example
```

Checkboxes

To format a checkbox, use a container element with the class `.form-check` and add `.form-check-label` to the labels, and `.form-check-input` to the input field with `type="checkbox"`.

The form below contains 3 checkboxes. The first option is checked by default and the last one is disabled:

Checkboxes

Để định dạng checkbox, dùng một phần tử container với class `.form-check` và thêm `.form-check-label` vào các label, `.form-check-input` vào trường nhập dữ liệu với `type="checkbox"`.

- Downloadvn
- Hoatieu

Radio buttons

Radio buttons are used when you want to restrict users to having only one option in the list. Sample code:

`Option 1` `Option 2` `Option 3`

For example:

Bootstrap Example

Button radio

The form below contains 3 radio buttons. The first option is checked by default, the last one is disabled:

- Downloadvn
- VnDoc

Selection switch

If you want to format the checkbox as a toggle button like a switch, use the class `.form-switch` along with the container `.form-check`.

Basic code:

```
Dark Mode
```

Above is how to create checkboxes and radio buttons for web and application development. Hopefully, this Bootstrap 5 lesson is helpful to you.
