

## LG confirmed to launch G Flex 2 and Vu 4 this year

Today is a busy day for LG with the focus of introducing the G3 high-end smartphone in an event in the UK. Along with that in Korea, they also have a private event that takes place in Seoul city.

**Today is a busy day for LG with the focus of introducing the G3 high-end smartphone in an event in the UK. Along with that in Korea, they also have a private event that takes place in Seoul city.**

Here, besides introducing the **LG G3** in the hometown, the company also shared plans to launch new products this year. Accordingly, the next curved screen smartphone version, **G Flex 2** and the 4th version of the unique 4:3 screen smartphone **Vu 4** will be released in the second half of 2014.

The well-known account of Twitter's leaked information also suggested that the G Flex 2 would bring more improvements than the first generation. Maybe LG will release this smartphone in Korea at the end of the year, while the world market will have to wait until Q1 / 2015.

Besides, with the *Optimus Vu* product line, although not achieving the expected success in the world market, this phone is selling well in the Korean market, which is why LG is ready to launch the generation. Next of the line Vu.

In addition, there has been no further information about the improvements in the two new devices, however, as usual, the closer you get to the launch date, the more accurate information about the expected phones will be available. this.
