

LG Velvet completely exposed: screen 'water droplets', 3 cameras, Snapdragon 765G, launched 7/5

LG's new smartphone will soon be launched with a completely 'makeover' design.

Since LG officially announced the all-new LG Velvet smartphone product line, many information as well as leaked images of this LG smartphone have been revealed. Recently, most of us have witnessed the actual images of LG Velvet as well as knew almost all the configuration parameters of this smartphone right before the launch.

The images below are widely shared on social networks, most of which are display machines taken from an LG phone retailer in South Korea.

Actual photos of LG Velvet at a showroom

The design of the LG Velvet series is probably well known in the renders previously revealed. LG said the company will focus heavily on the design of the product, instead of racing on performance hardware or cameras. That's why the new Velvet series has a completely new makeover design, with 3D curves to enhance the look of the phone. The back of the device is curved overflowing on both sides as well as having a main camera arrangement like a drop of water.

On the front, LG Velvet will own a curved screen with edge-to-edge design with a "water drop" design that is no longer seen on mid-range or high-end smartphones. Most smartphones today except for the low-cost line will switch to using the more popular "mole" design. LG's continued use of the "water drop" design may make many technology fans feel uninterested.

The leaked images also reveal hardware details of the new LG Velvet, specifically the device will have dimensions of 167.2 x 74.1 x 7.9mm, weighs 180g, supports IP68 water resistance and MIL-STD military durability standards. 810.

Detailed configuration of LG Velvet:

- Screen: 6.8 inch Cinematic FullVision OLED 20.5: 9, Full HD +
- CPU: Qualcomm Snapdragon 765G
- RAM: 6GB
- ROM: 128GB

- Camera: 48MP + 8MP + 5MP
- Selfie camera: 16MP
- Battery: 4300mAh
- Security: Fingerprint in the screen

LG Velvet will soon be released by LG on May 7 and hit shelves on May 15 shortly thereafter. Pricing for this product line has not been disclosed.
