

LG's netbook with 3G connection

Or the most impressive point in the design of LG X110 is the wide-reaching keyboard and support for mobile SIM slot for 3G connectivity.

Or the most impressive point in the design of LG X110 is the wide-reaching keyboard and support for mobile SIM slot for 3G connectivity.

LG Netbook X110 is equipped with the same configuration as other netbook models, 1.6 GHz Intel Atom N270 processor, 1 GB RAM. 160 GB hard drive. It has a nice design with a pink exterior, 10-inch screen, a large keyboard and trackpad. This model integrates webcam, 3 USB ports, SD card slot next to Wi-Fi connection.

Large keyboard with key presses to the edge.

On the left side, there are clearly two USB ports, air vents to reduce heat for the Atom N270 processor.

Meanwhile, the right side is the SD card slot, adding a USB port, headphone jack, next to the D-Sub video and Ethernet output ports.

3G SIM slot is located under the battery.
