

Lien Quan Mobile: Revealing the plan to collaborate with DC in 2022

Not stopping at the Capheny Harley Quinn skin, 2022 continues to be a year marking the next super big cooperation event of Lien Quan Mobile with DC.

Recently, the plan to 'shake hands' with DC in 2022 was publicly revealed by the original developer of Lien Lien Mobile on the official Instagram page with a question that suggested to fans which DC character would they like to appear. in the game at the new year?

In December 2021, a collab with DC for the Capheny Harley Quinn costume is probably the most successful collaboration of Lien Quan Mobile in the past year when it received a lot of response from the gaming community. From there, it also confirms how great the attraction of DC characters is.

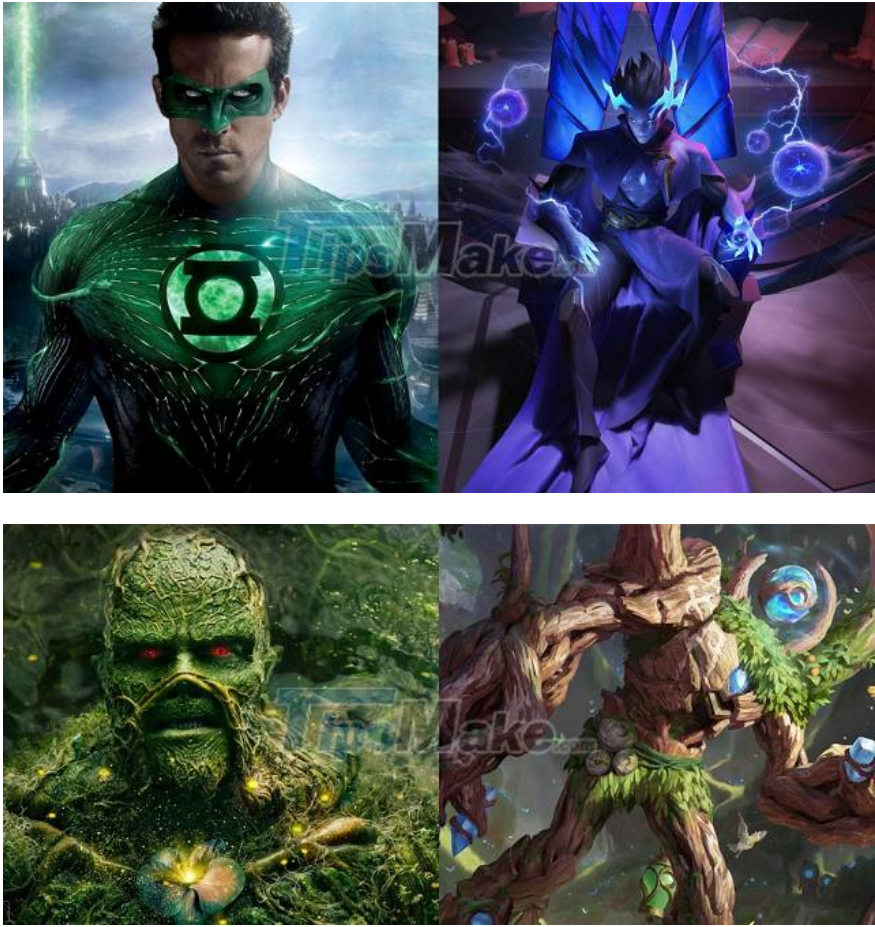

Also from this success, 2022 continues to be a year marking another super big cooperation event of Lien Quan Mobile with the DC Comic universe. In the immediate future, the leaked information is still limited, so it is not clear whether NPH will launch a new champion or simply a genuine skin!

Following the previous joy from the Capheny Harley Quinn skin, the gaming community has received this great news in an excited mood, eagerly waiting for the next collab. Some players even confidently raised their ideas and expressed their wish that the Lien Quan development team would design and launch new champions based on the DC character's model.

Countless Lien Quan Mobile gamers have left comments and lively discussions on this topic, in which unique ideas such as the Green Lantern skin for Lorion or the Swamp Thing for Y'bneht and Aquaman were taken. original from the general Ton Sach in the King of Glory.

In short, the cooperation between Lien Quan Mobile and DC in 2022 will certainly be monumental and not inferior to the previous "handshakes". Gamer community, please stay calm and wait!
