

# Lifetime investment package OFFICE HOME & BUSINESS 2019

Office Home & Business 2019 is a one-time purchase and lifetime use for 1 PC or 1 Mac. Notably, this version of Office can be transferred to another device in case the user upgrades to a new modern computer.

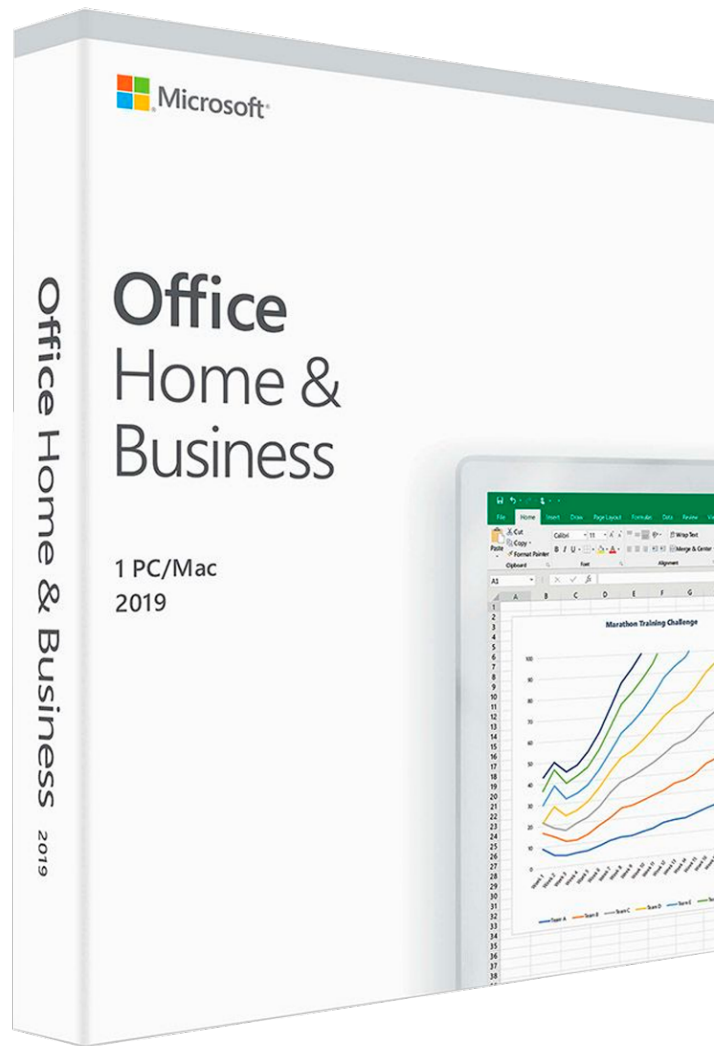

With the important criteria of focusing on getting things done and resolving them completely, this is a Microsoft Office application suitable for small and medium-sized business devices running on Windows 10 Pro platform, wanting to use email and classic office applications such as Word, Excel, Power Point, Outlook.

## 1. Form

Office Home & Business 2019 is currently available in two forms:

### 1. Physical box (FPP – Full Package Product)

## 2. Electronic Key (ESD – Electronic Software Delivery)

# Office Home & Business

In general, Microsoft software in the form of **electronic keys (ESD)** will have an advantage over **physical boxes (FPP)** because Office product keys reach customers many times faster than in the form of boxes.

In addition, the product key will be transported via an electronic portal, connected from HACOM to Microsoft, ensuring security, ensuring that the product is new, unactivated and genuine from Microsoft.

## 1. Additional Features

In addition to classic Office applications, Office Home & Business 2019 now has the free Microsoft Teams tool, which is a powerful assistant for businesses that want to expand their global development scale. Through Teams, geographical barriers are removed, building a comprehensive remote security environment for employees to comfortably share data, exchange work, and collaborate effectively.
