

List of Chinese applications should be removed immediately from the device to ensure safety

Most of them are familiar to users in Vietnam, some even have pre-installed on their phones before being sold. For example, Clean Master, CM Browser, CM Security Master, Battery Doctor ...

Recently, Google has officially removed 600 applications that display annoying ads on Google Play. Among those applications are many familiar applications, with high downloads such as Clean Master, CM Browser, PhotoGrid .

Per Bjorke, senior product manager at Google, said that the deleted applications have downloaded more than 4.5 billion times.

Cheetah Mobile, a Chinese-based company and one of the largest developers on Google Play, was also 'purged' this time. Previously, this company was repeatedly accused of fraudulent business practices.

In December, some of Cheetah Mobile's apps were removed by Google for violating the policy. And by this morning, all 45 developer apps on Google Play have disappeared. Most of them are familiar to users in Vietnam, some even have pre-installed on their phones before being sold. For example, Clean Master, CM Browser, CM Security Master, Battery Doctor .

CM Launcher

CM Launcher is a popular Android-based user interface customization app. It provides a large pool of 3D animation and VR themes, and offers high-speed, smooth, and secure android-based screen options in over 200 countries/regions. It is a top customization application in 101 countries on Google Play, with close to 300 million downloads.

Battery Doctor

The world's most professional battery maintenance and power management software, Battery Doctor helps users extend battery life with smart power usage. Covers more than 200 countries and regions. #1 on the Google Play tool app rankings in 26 countries. #1 on the App Store tool rankings in 133 countries. Over 100 million downloads on Google Play.

PhotoGrid

PhotoGrid is a magical application for photo editing, video making, and filtering. With rich resources and AI techniques, it has a Smart Tech function that creates HDR effects on photos and corrects flaws and dims light with one touch. It has nearly 550 million downloads on android and iOS. It was also named one of the Top Apps of 2016 by Google Play.

List of applications of Cheetah Mobile, users can refer to the link below. In case your device is installing these applications, it should be removed immediately.
