

List of stats, skills and system of chess / generals in Dota Underlords

This is a list of indicators, details of skills and system of chess / generals in Dota Underlords

The way Dota Underlords works is based on the classification system of chess pieces. You will have a skill dedicated to chess pieces that are brought into battle. If you have more quality pieces, the price will be more expensive.

And when you have more quality pieces, you will have very strong skills and ability to change matches. Accordingly, the amount of the chess piece corresponds to the rank of the chess piece. For example, Tier 1 chess pieces will cost 1 gold, tier 2 chess pieces will be 2 gold.

In the article below will summarize all the chess pieces in the game so you can grasp it clearly.
