Specifically, there are 3 devices updated to Android 9 Pie including:

1. Mi MIX 2s
2. Mi 8 SE
3. Mi 8 Fingerprint (Mi 8 version has fingerprint sensor in the screen).

4 devices updated Android 8 Oreo include:

1. Redmi 5
2. Redmi 5a
3. Redmi 5 Plus
4. Mi 5x

Particularly, Oreo OS version for Mi 5s Plus has been temporarily released due to some software-related errors.

In addition, Xiaomi also announced that devices that have received two major Android OS updates will not be available on Android Pie. For example, Mi 5 or Mi5s have received two major Android updates, Nougat and Oreo, so they won't be upgraded to Android Pie.
