After you've done enough research and upgrades to your bunker, it's time to invest in production to get a profit. To craft weapons, you need materials, purchased with money or obtained through quests. If you buy materials with money, the profit will not be much in the future and if you spend the time making materials through doing quests, the profit will be much greater.

20 ingredients cost \$ 15,000 and 100 ingredients cost \$ 75,000.

- Solo quests provide 20 ingredients and group quests provide 40 ingredients.

The mission is quite simple and you can perform most of the missions yourself with a fully equipped character. To sell weapons, you'll need to do Bunker Sell Missions. These 6 missions include Dune FAV, Insurgent, Insurgent Pick-Up Customs, Insurgent Pick-Up Customs ambushed by Merryweather, Marshall and Phantom Wedge. You should sell weapons in Los Santos to make 50% more profit in just a short time.
