Easy-to-spot opponents in PUBG Mobile

1. Position on watchtower

Watchtower is one of the most frequented places with the aim of easily observing the whole scene, easily detecting targets from above. But if you are not careful, this will be a very dangerous position, because the target can watch and destroy you from bottom to top.

2. On the roof

This position is like a watchtower, choose to observe the situation, or find items on the roof or hide above it. And the enemy will quickly flash the opportunity to shoot you down.

3. After the window

The position behind the window is a very dangerous place because the enemy can shoot you down in this window position. If the window is broken, the enemy may still be indoors and are picking up items. A point that you can take advantage of to know if anyone has sneaked into the house is the open window.

4. Hide behind the vehicles

Using the means in the game is essential to be able to move faster, especially in bo. Many players often go to the vehicles then test drive, or may hide behind big cars to move to another area. Pay attention to these positions to shoot down the enemy.

5. After trees and rocks

If running in the wild fields, the tree and the rock are definitely the hidden position of anyone when playing games. You can rely on these positions to destroy opponents. However, it is also important to pay attention because the opponent can hide himself carefully.
