

Macbook Air 2013 to Vietnam

Apple 's ultra - slim battery with a 12 - hour battery life is available in Vietnam just two days after it was launched at WWDC 2013.

Apple 's ultra - slim battery with a 12 - hour battery life is available in Vietnam just two days after it was launched at WWDC 2013.

The product will be sold for VND **23.2 million** for the **11-inch** version and **VND 25.7 million** for the **13-inch** version . According to the first store representative to import this product, the **Macbook Air** only changes hardware, not the design difference compared to the old generation.

Macbook Air 2013 has an impressive battery life of up to 12 hours. *(Photo: Huy Duc)*

The machine is still running **Mountain Lion** operating system **10.8.4** but not **Maverick** recently introduced by Apple, the company has not yet announced the policy to upgrade this operating system to be upgraded for the 2013 model of the company like last year or have to pay more to upgrade.

About the design, **Macbook Air 2013** nothing changed compared to 2012 model. On the screen hardware of the machine has not been upgraded to Retina as expected of most users but still keep the resolution of 1440x900 pixels.

The device is equipped with **Intel Core i5 processor Haswell's new generation** speed of 1.3 GHz, 4 GB RAM and the lowest internal memory is 128 GB. The model using the integrated graphics card in main is the **Intel HD Graphic 5000**.

The upgraded product also uses dual microphones that allow stereo recording and the Thunderbolt 2.0 connector with write speeds of up to 10 Gbps. The last notable point is that the product is equipped with a standard Wi-Fi connection.

Real photos of Macbook Air 2013:

Carrying case with familiar style of Apple.

The machine comes with charger and manual.

The design is not different from the 2012 model.

Under the machine.

On the left side of the device with charging port, USB 3.0, headphone jack and 2 dual microphones.

Right side of the machine with Thunderbolt 2.0 port, USB 3.0, 13-inch version will have an additional SD card reader.

Rear machine with black screen hinges.

Viewed from the front, the Air Macbook has an ultra-slim design.
