Three models of MacBook Air 2010 found refurbished are sold on Apple Store.

Apple yesterday quietly updated the new price for some Refurbished 2010 MacBook Air models. Accordingly, the new selling price is only from 679 USD, down to 120 USD compared to before. The lowest configuration to choose includes 11.6-inch screen, 1.4-GHz Intel Core 2 Duo processor, 2 GB RAM, 64 GB SSD, Nvidia GeForce 320M graphics card .

Meanwhile, two more expensive versions with respectively 2 GB RAM, 128 GB SSD hard drive or 4 GB RAM and 64 GB SSD hard drive are all priced at 719 USD.

All models are preinstalled with Mac OS X Mountain Lion operating system before reaching users.

Refurbished (refurbished) products are already used but Apple replaced damaged parts or replaced batteries for new condition but still receive the same warranty as new ones. These refurbished MacBook Air models still meet the manufacturer's selling standards.
