

# Make artistic black and white photos with PhotoScape

You really want to own black and white photos of art but are still struggling to learn how to do it. Please refer to our article below to manually create beautiful black and white photos in just a few simple steps.

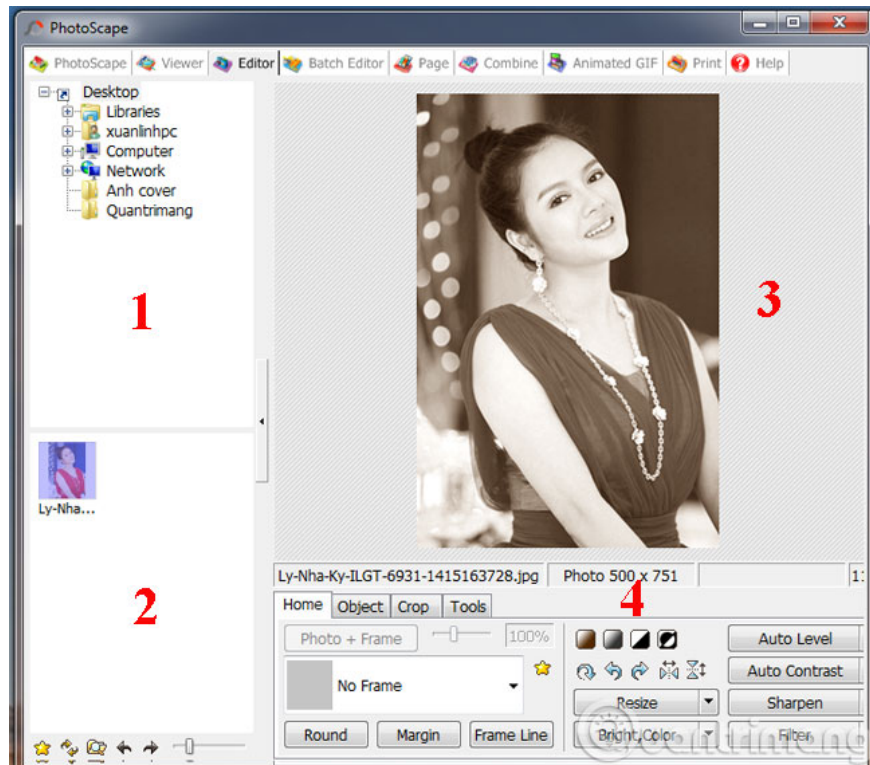

You really want to own black and white photos of art but are still struggling to learn how to do it. Please refer to our article below to manually create beautiful black and white photos in just a few simple steps.

1. How to edit photos with Camera360 on the computer
2. How to find the same image on Google Image?
3. Instructions for creating GIF images with Imgur.com

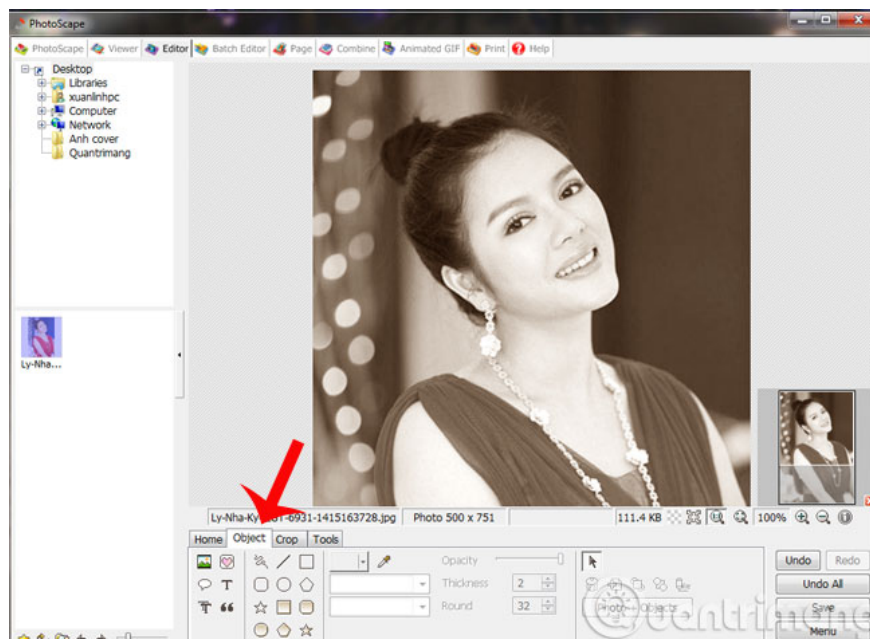

**Step 1 :** Open the **PhotoScape** program, on the main interface, click on the **Editor** in the middle of the screen ( *in the picture below* ) to edit the image.

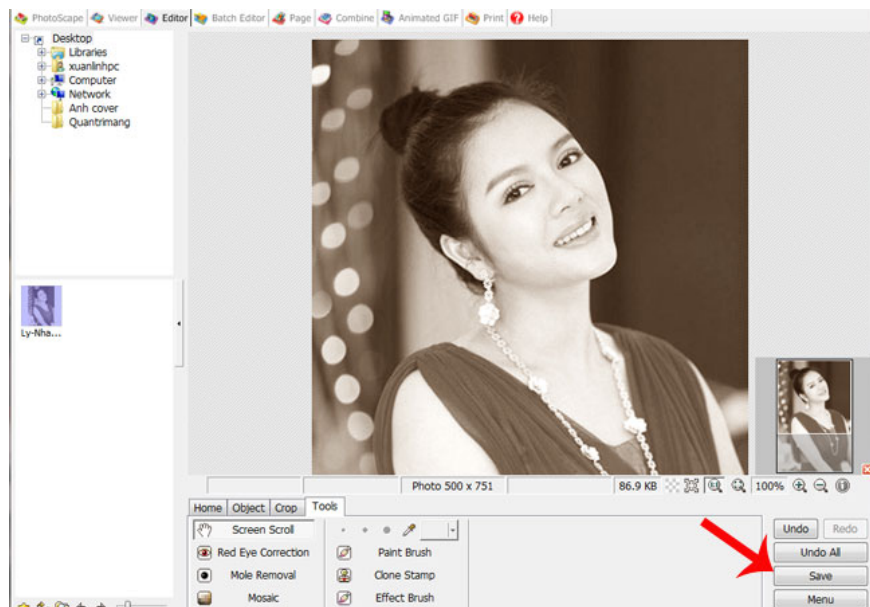

**Step 2 :** Point to the folder containing the color image you want to convert to black and white. After finding the photo to edit, click on the image to move it to the right-hand frame. Next choose one of the 4 functions to convert black and white images from color images ( *as shown in the picture below* ).

**Step 3 :** If you want to create more frames, borders, insert text on images or some other effects, click on **Object** . Then, add and edit to match the photo.

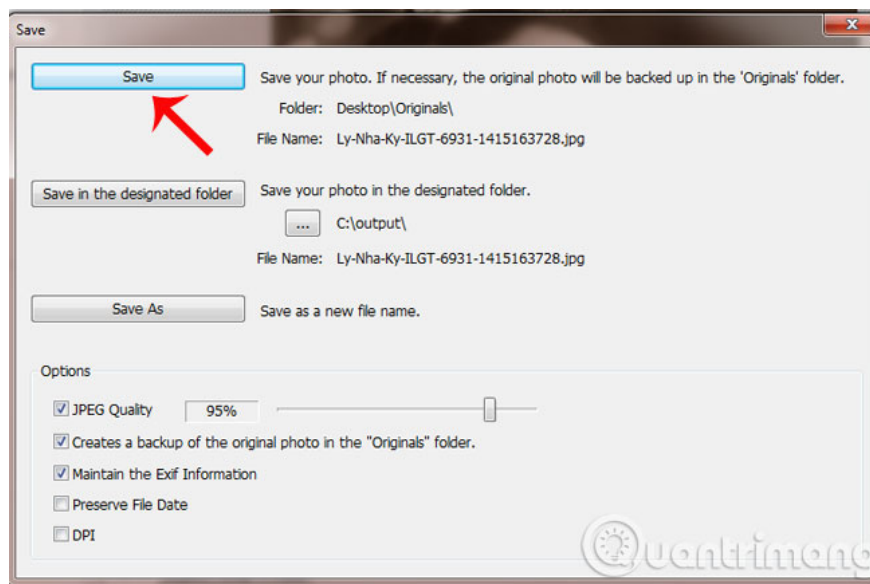

**Step 4:** After editing, click the Save button to save the black and white image you just created on your computer.

**Step 5 :** Soon the Save window appears allowing you to save the following options:

1. **Save** : Save this image overwrite the original image and back up the original image to a folder named " *Orifinals* " .
2. **Save in the designated folder** : Save the image to the specified folder.
3. **Save as** : Save the image with a new name.

If you want to choose the image quality, select it in the **JPEG Quality** box, then drag and choose the quality as you like. If you want to back up **the original photos in the "Originals" folder**, check the box **Create a backup of the original photo in the "Originals" folder** .

So you have finished an art black and white photo. Not too difficult, right?

**Having fun!**
