Heating bags are an indispensable item to help you warm up in cold winters, instead of going out to buy samples of heating bags that may not be safe for you, learn how to sew super cute heart-shaped heating bags and utilities below. Only with easy-to-find materials and 4 simple steps, you have completed a beautiful heating bag and warm enough when the monsoon comes.

1. Instructions for homemade bath heating lamps simple and safe with just over VND 100,000
2. Instructions for installing bath heating lamps and safe usage
3. Indispensable heating in winter

## Raw materials for winter heating bags are heart shaped

To make the heart-shaped winter heating bags, you need to prepare the following materials:

1. Felt cloth.
2. Needle.
3. Drag.
4. 1 small spoon.
5. Rice.

The material to create this handmade heating bag is quite simple.

## **Steps to make heart-shaped winter heating bags**

**Step 1:** Cut the felt cloth into heart shapes (or flowers and birds favorite pictures).

**Step 2:** Put two heart shapes together and then sew the edges around and remember to leave an opening to give the rice.

Note: You can use sutures of the same color or different colors according to your preferences.

**Step 3:** Use a spoon to stuff rice inside the bag through the opening.

Note: You stuff the rice just right because if it is full, it will make the bag hard and the podium, so it will not be durable.

**Step 4:** Sewing the mouth of the bag is finished.

## How to use a heart-shaped winter heating bag

So after a fairly detailed tutorial, you've finished sewing your own safe heating bag this winter to warm your hands.

In winter, if there's a warm heart-shaped heating bag for cold use, what's the best for you?

Want this heart-shaped heating bag to work, throw it into the microwave and spin for about 45 seconds, then put it in your pocket. When the hand is cold, just put your hand into the pocket of your shirt and your hands are warmed up immediately.

The heating bag is not only pretty but also brings us warmth every night to sleep. Or you can put this heating bag into the body of the pretty little bears, by:

1. Use a knife to gently cut the body of the bear.
2. Stitching buttons along the open body of the bear.
3. Put the warmed rice bag into the body of the bear and hold it tightly.

Hold the bear with this warm heart-shaped heating bag.

The winter has come true, please show yourself the warm winter warm heart-shaped bags to "bid farewell" the winter cold and protect your health. This is also a very cute gift for friends, relatives, especially "people" on special occasions such as birthdays, Christmas, . or simply want to send a gift of heart Cute but cute like that.

Good luck!
