

# Map Karakin map information and Season 6 PUBG updates

Along with the appearance of the new map PUBG Karakin is features, new weapons, new vehicles and some other interesting things in PUBG Season 6.

Season 6.1 PUBG is coming and will give gamers a new map. This new PUBG map will have the smallest area compared to the previous PUBG survival maps called Karakin, which will provide the fastest-paced gameplay ever in survival mode. specified.

In addition to this new map, there will be more "toys" and other new media for gamers to experience. Along with that there will be a few special points that only this new Karakin PUBG map has its own, let's see details of what this new PUBG map has below.

## New map PUBG Karakin with new weapons and vehicles in Season 6.1

### Map Karakin

Karakin is a small island located off the coast of North Africa with a typical climate with a dry, rocky terrain. It can be said that Karakin has a similar terrain to Miramar but with a miniature area of ??only 2x2 km and a faster pace than Sanhok map.

You will be able to participate in the match on the middle of rugged mountains or strong conflicts with enemies in small neighborhoods or in hidden tunnels. Accompanying with the launch of the Black Zone (Black Zone) will change the layout of the game and increase the tactics in the game.

## Black Zone

Compared to the Red Zone, the Black Zone is much more annoying when this feature will mark a random area on the map and start air raids on this area.

However, unlike Red Zone that players can hide in buildings is safe, Black Zone will push players out of the buildings with rockets when they will completely demolish the houses. in the area.

Buildings that have been in the Black Zone will not change in real time in the game. Which means that any building that collapsed is always collapsed and does not recover for the rest of the match.

The sign of the Black Zone is a distinctive siren and purple circle. If you hear the whistle and are standing in a purple circle, you must immediately exit your dwelling. In addition, the houses in the Black Zone area will be destroyed with a purple X mark.

## Glider Glider

Fly like a butterfly, sting like a bee, it's a glider. Available on Erangel and Miramar, about 10 Glider will appear randomly on 40 different points.

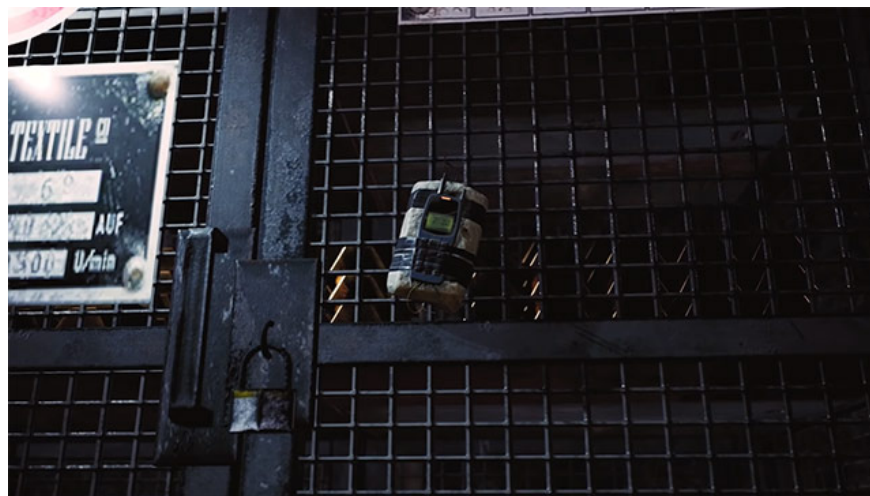

Motor Glider has two seats, one for pilots and one for passengers who can shoot and use any weapon from the backseat.

To take off, you need to reach a speed of 65 km / h then fly up with the S key. You start to take off when reaching 70 km / h. Fuel consumption naturally depends on the speed you control, the higher the speed, the faster the fuel consumption.

The roller coaster may not have gas, so you need to find fuel before you start the engine. And it doesn't have a height limit that you can fly to, but the engine will shut down the higher you fly.

**Controls:** Use the W and S keys to control up and down, and A and D to control the roller coaster. Press the gas with Shift and reduce the throttle with Ctrl, the Space key to brake.

## Sticky Bombs

This weapon will increase the level of suspense for gamers when used in the terrain of Karakin, especially in the tunnel. At some entry points with a specific feature, gamers can destroy to enter.

There are a number of walls and floors that can be destroyed if a bomb is used to break in. You can invite your teammates to break into the interior in these two ways. There are also secret areas that can break in with this bomb.

## Shoot through walls

In addition, to increase the attractiveness for indoor gun battles, the developer decided to add the ability to shoot through the weakest generals. But only on plaster walls like in the picture above.

Currently the new Karakin map is available on the testing server of PUBG PC and will be available on the official server on January 22 after maintenance. As for PUBG Mobile, there is no information yet.
