

Marvel's Midnight Suns - a super product with extreme graphics, promising to cause storms in early 2022

Instead of focusing on the glitz of superheroes, Marvel's Midnight Suns will lead players to explore the dark side of the Marvel's universe.

Following the resounding success of Marvel superhero games like Spider-Man or the latest Guardians of the Galaxy, recently 2K and Firaxis Games have teamed up to prepare to launch a super game. another hero with the name Marvel's Midnight Suns.

Unlike the "senior" who went before focusing on exploiting the "flashiness" of superheroes, Marvel's Midnight Suns will lead players to explore the dark side of the Marvel's universe. A series of superheroes from the multiverse like Avengers, Runaways and X-Men will join forces to fight against the forces of darkness, specifically here is Lilith - the mother of demons, who will release creatures from hell. to challenge humanity's survival.

Popular characters like Blade, Ghost Rider and Nico Minoru will also join the main cast of the game. Through the trailer, it can be seen that this is a product that is invested very seriously when it comes to action scenes and excellent sound graphics quality.

Marvel's Midnight Sun is an action role-playing game in which players fight evil forces from hell.

The following is a list of confirmed characters to appear in Marvel's Midnight Suns:

1. The Hunter
2. Ghost Rider (Robbie Reyes)
3. Blade
4. Wolverine
5. Iron Man
6. Captain America
7. Doctor Strange
8. Captain Marvel
9. Nico Minoru
10. Magik

A few other characters will be released as additional DLC after the game's launch such as:

1. Morbius-The Living Vampire
2. Hannibal King
3. Louise Hastings
4. Victoria Montesi
5. Sam Buchanan

If nothing changes, Marvel's Midnight Suns will officially launch in March 2022 on different platforms.
