

Microsoft Dynamics AX 2012 has up to 1,000 new features

Microsoft and partner Votiva have just introduced a new version of Microsoft Dynamics AX 2012 - Enterprise Resource Planning (ERP) solution to Vietnamese businesses.

Microsoft and partner Votiva have just introduced a new version of Microsoft Dynamics AX 2012 - Enterprise Resource Planning (ERP) solution to Vietnamese businesses.

Improved with over 1,000 new features, Microsoft Dynamics AX 2012 allows businesses to anticipate and keep up with the fast changing business environment. With flexibility, the solution can be implemented by a unified business process system, model-oriented architecture. Simple operations come from familiar user experience and associated collaboration tools.

Mr. Steve Ballmer, CEO of Microsoft Corporation once emphasized, Microsoft Dynamics AX 2012 is the new generation of business applications. This is a set of enterprise resource planning solutions that frees up the current barriers of business, and helps businesses more easily control business operations.

' Therefore, Microsoft Dynamics AX 2012 promises to help businesses work faster, simplify decision making and succeed in any environment, ' said Steve Ballmer.

Microsoft Dynamics AX flexible architecture 2012 includes the ability to build solutions for many industries and geographic areas, creating quick and easy changes to business processes and personal experience, to meet the changing needs of businesses no matter how complex the organization is.

The simplicity of the Microsoft Dynamics Role Tailored function provides everyone throughout the company with the information needed to handle the job, easily using Microsoft software daily, proactively designing management reports Business intelligence (BI) helps businesses make quick and accurate decisions.

Microsoft Dynamics AX 2012 version has been localized by Microsoft, built specifically for the Vietnamese market, to meet the requirements and standards issued by state agencies.
