

Microsoft launched a new Office icon set, a major change in design

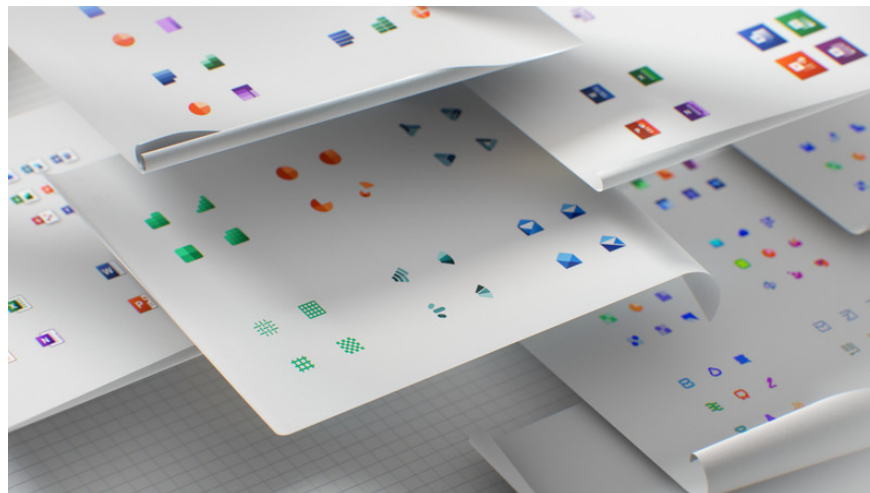

Recently, Microsoft announced that it will change Office icon set in the next 5 years to maintain the design.

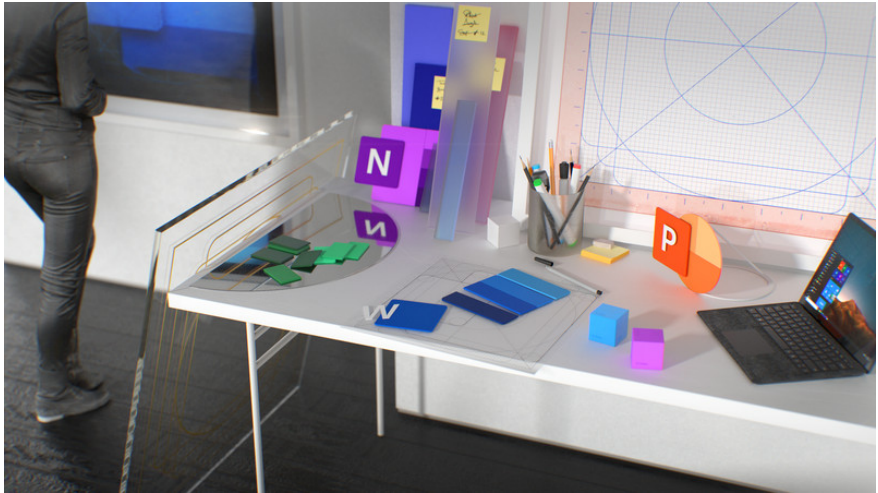

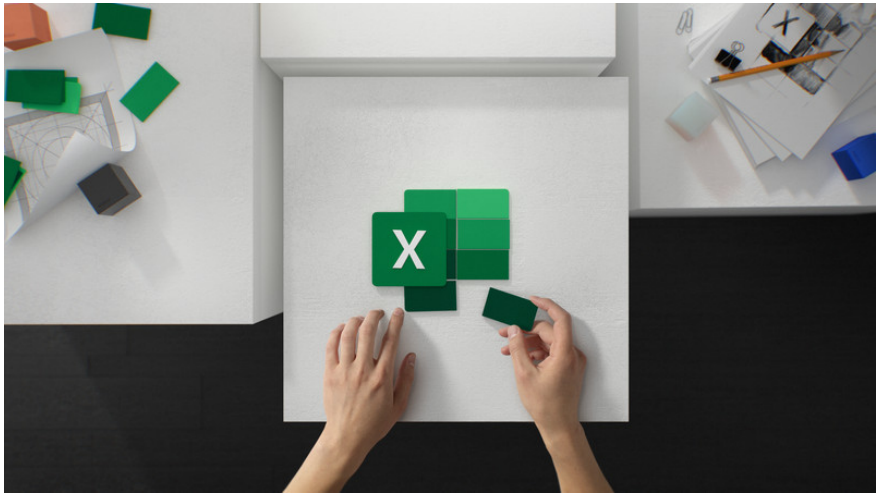

Recently, Microsoft announced that it will change Office icon set in the next 5 years to maintain the design.

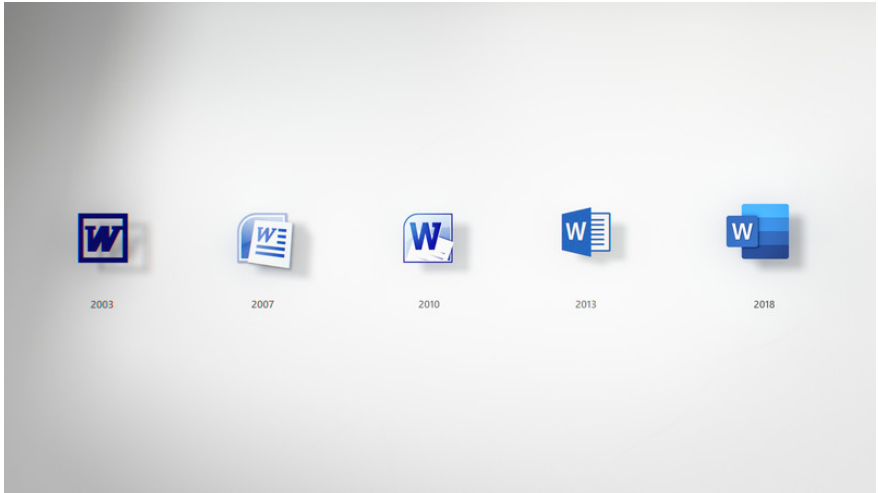

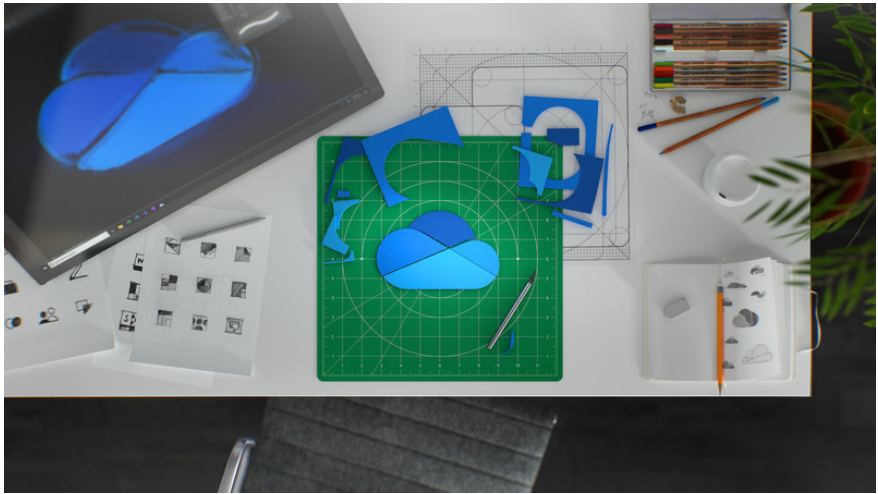

According to Microsoft's share, the new icon set will be better suited to the modern features and designs of popular applications like Word, Excel, PowerPoint and Outlook on Windows, iOS, Mac, and Android. The specific colors of each application remain the same but more minimalist. The designs will only have square, circular and basic lines.

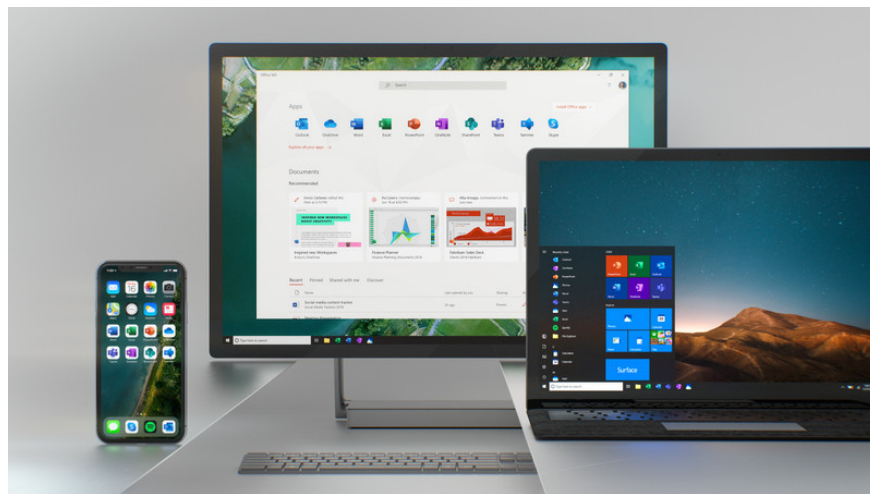

In the future, Office will receive many new changes and the icon is one of them. The biggest change is that Office applications on all platforms will be equipped with Windows 10's Fluent Design interface. In addition, Outlook Mobile, one of Microsoft's most popular mobile applications will also be available. design changes, gesture navigation support and mailbox sharing.

Please admire the new Office icon set:
