

Microsoft tops the list of the world's top 100 technology companies

Recently, Thomson Reuters Corp. announced the list of 'Top 100 global technology companies', led by Microsoft.

Recently, *Thomson Reuters Corp.* announced a list of 'Top 100 technology leaders worldwide', led by **Microsoft**, followed by chip maker **Intel** and maker of **Cisco** network equipment .

The list is designed to name the financially successful companies and leading organizations in the industry, indispensable technology giants like **Apple**, **Alphabet**, **International Business Machines** and **Texas Instruments** in the top 10. Chip manufacturing comes from **Taiwan Semiconductor Manufacturing**, German software maker **SAP** and **Accenture** consulting firm are the remaining names in the top 10.

Microsoft tops the list of technology leaders

The other 90 companies are not ranked, and there are other big companies in the industry like **Amazon** online retailer and **Facebook** social network .

This result is based on 28 algorithms, measuring the performance of the company in terms of finance, management, investment, risk and risk compensation, legal compliance and creativity (measured by patent activity), people and social responsibility, affecting the environment and reputation (sensitivity when appearing on news, social networks). Companies must have annual revenue of at least \$ 1 billion.
