

Minecraft officially released on Windows Phone

Finally, the popular Minecraft Pocket Edition sandbox game is officially available on devices running Windows Phone. Game released by Microsoft Studio.

Finally, the popular Minecraft Pocket Edition sandbox game is officially available on devices running Windows Phone. Game released by Microsoft Studio.

After belonging to Microsoft, the famous **Minecraft** game of *Mojang (Sweden)*, was developed by Microsoft developers and introduced to Windows Phone users. Previously, Minecraft Pocket Edition was released on both the largest mobile operating system platforms currently iOS and Android.

Minecraft Pocket Edition version on Windows Phone will not have much difference compared to on iOS and Android platforms. The price to download the game remains at \$ 6.99.

However, **Minecraft** players on Windows Phone will not be able to connect to versions of this game on iOS or Android. The player cannot connect to friends without them sharing a Wi-Fi network.

Interested Windows Phone users can download the game **here** .
