

Minecraft recipes to make basic items, food, tools, protective gear, wool, dyes

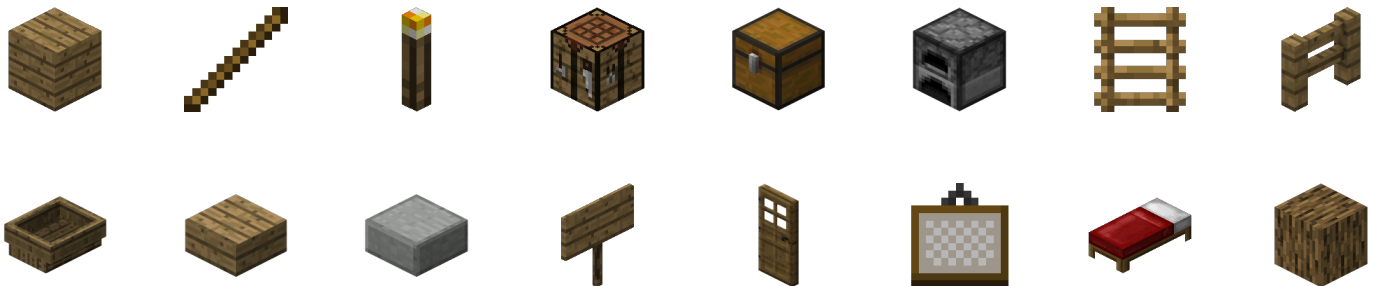

Joining Minecraft, you can freely create with your rich imagination, such as creating objects. We can create items, objects, materials, blocks and tools in minecraft pe in many different ways.

The square intellectual world of Minecraft always brings interesting things to game players, when opening up a large space and players will decide for themselves how to play as well as their ability to survive in many different directions. Your creative ability is also strongly exploited, when we can freely create many objects that are not the same as anyone else.

From items, objects, materials, blocks or tools in Minecraft PE, gamers can craft in many different ways, thereby creating many structures in the game. There are two places that can be used for crafting, the 2x2 crafting area in the inventory (press E), used to craft simple objects. The second is a 3x3-cell crafting table used to craft more complex things

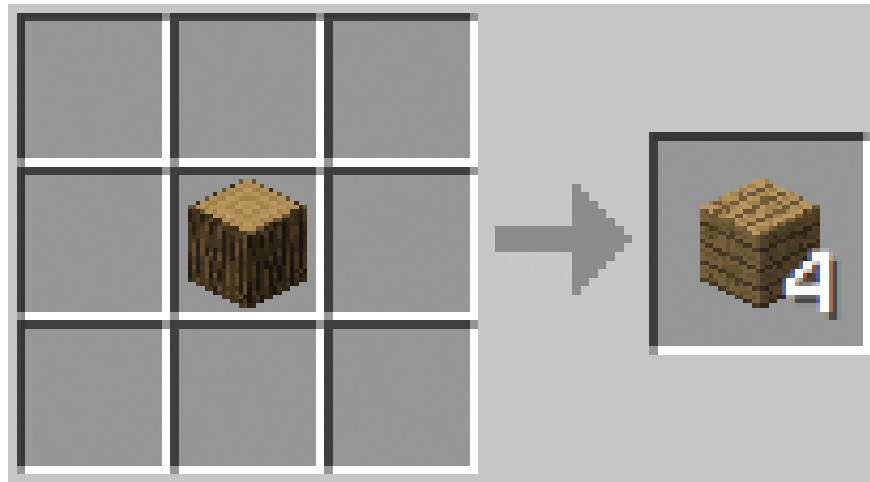

In this article, we will show you how to make basic objects in the game Minecraft.

1. Craft basic items in Minecraft

Wooden planks

This is the basic building material in the game and is crafted into different objects. **1 block of wood can be crafted into 4 blocks of wood planks** . Other wooden objects can be made from any type of wood regardless of color, except stairs and wood panels.

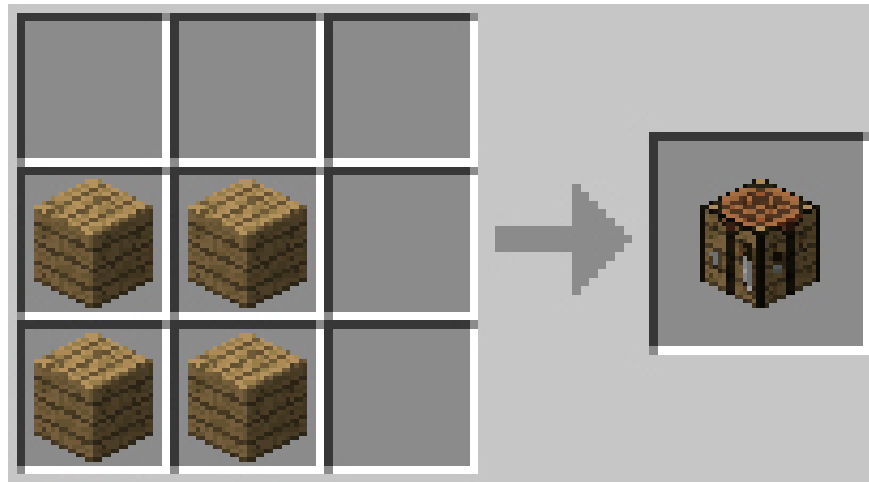

Wood stick

The main component of wooden sticks is wooden planks, **2 blocks of wooden planks will produce 4 wooden sticks** . If you want to create torches, arrows, plaques, tools and weapons, you will need these wooden sticks.

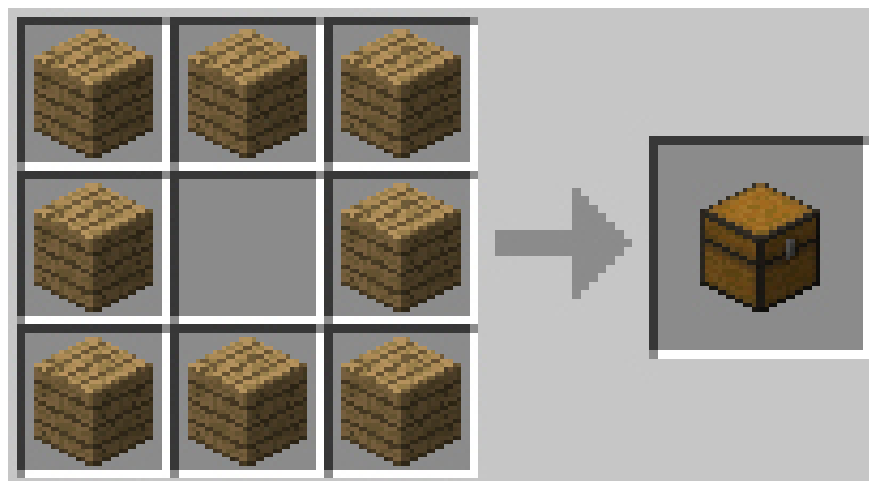

Crafting table

The crafting table is made from wooden planks. And from **4 wooden plank blocks we can create a crafting table** . This tool will be used to craft most items in the game.

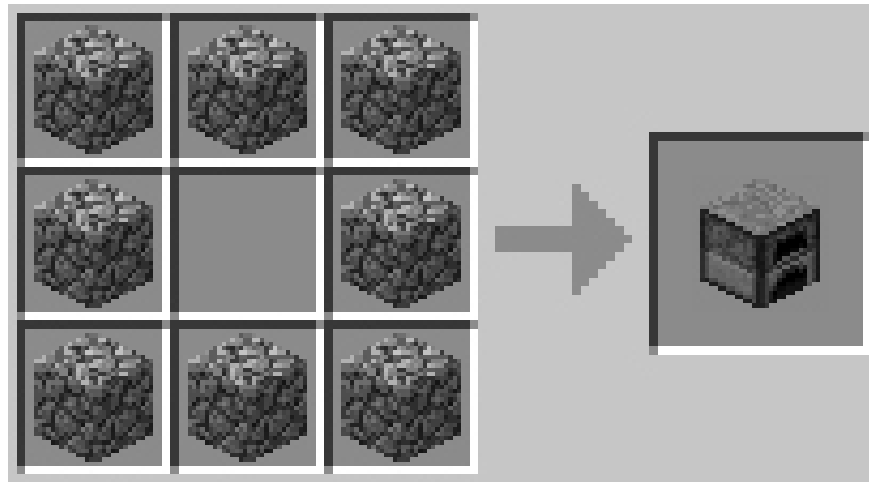

Chest

The main component of the chest is wooden planks, with a large number of **8 blocks of wooden planks forming a chest** . You can use the chest to store blocks, items or materials with 27 empty slots. If two chests are placed next to each other, a new chest will be created that is twice the size of the original chest.

Furnace

We will use cobblestone to make the furnace. **8 cobblestone blocks will produce 1 furnace** , used for cooking or baking.

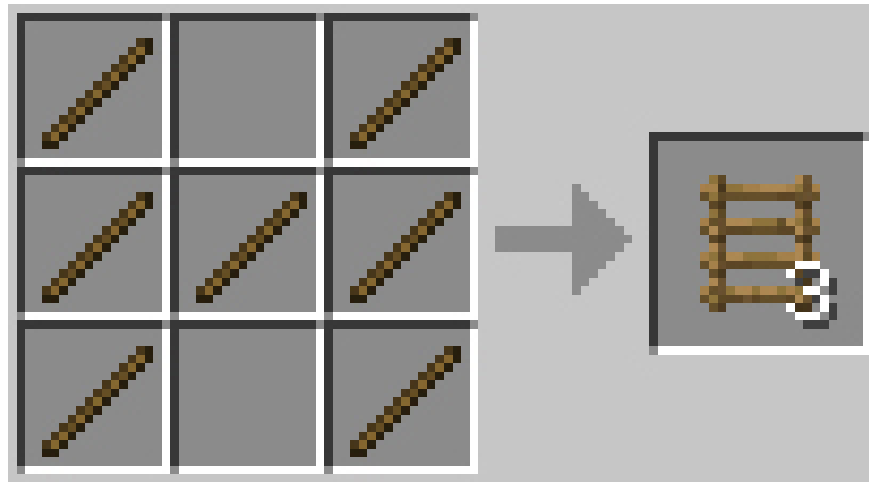

Torch

Made from two ingredients: **1 block of coal** and **1 stick** , we will create **4 torches** . For tasks in the dark, torches are necessary items, or to melt snow and ice.

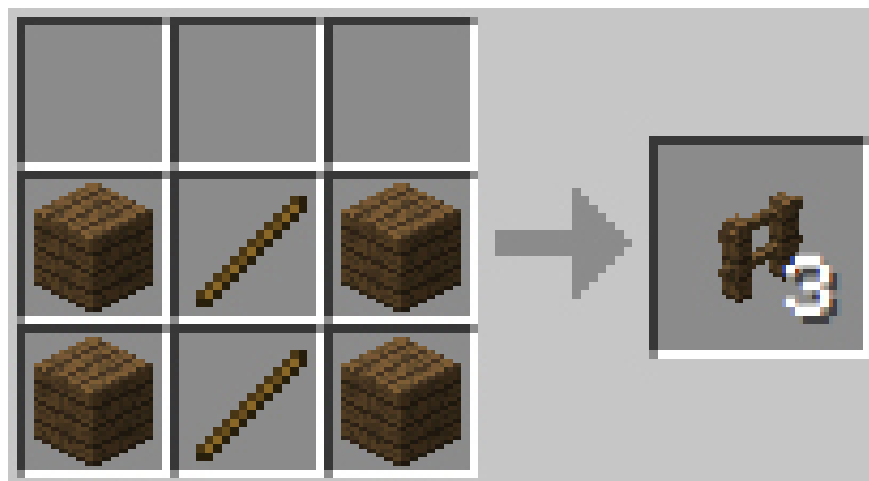

Ladder

You need **7 wooden sticks** to create **3** complete ladders, used to climb high.

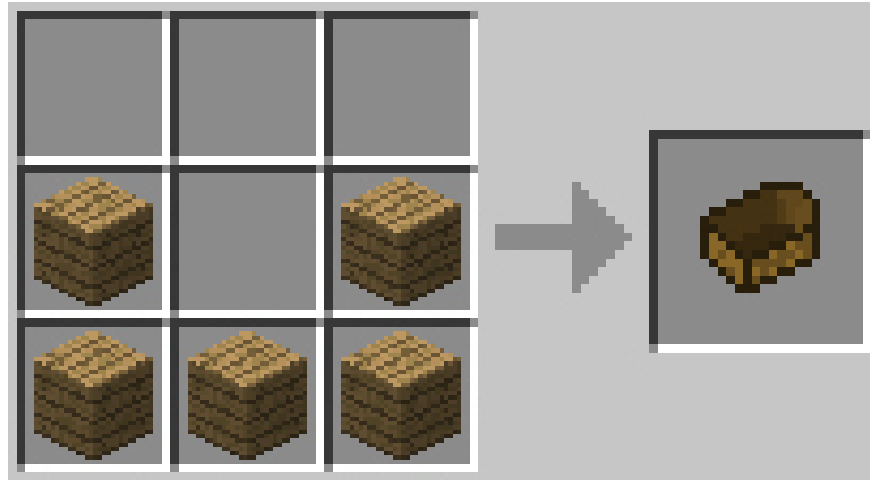

Fence

Fences require more materials. **6 wooden sticks create 2 fences** , **6 cinder blocks create 6 fences** , **4 wooden blocks combined with 2 wooden sticks create 3 fences** , **2 wooden sticks with 4 brick blocks create 3 fences** . When using a fence, monsters and wild animals will not be able to jump over, ensuring your safety.

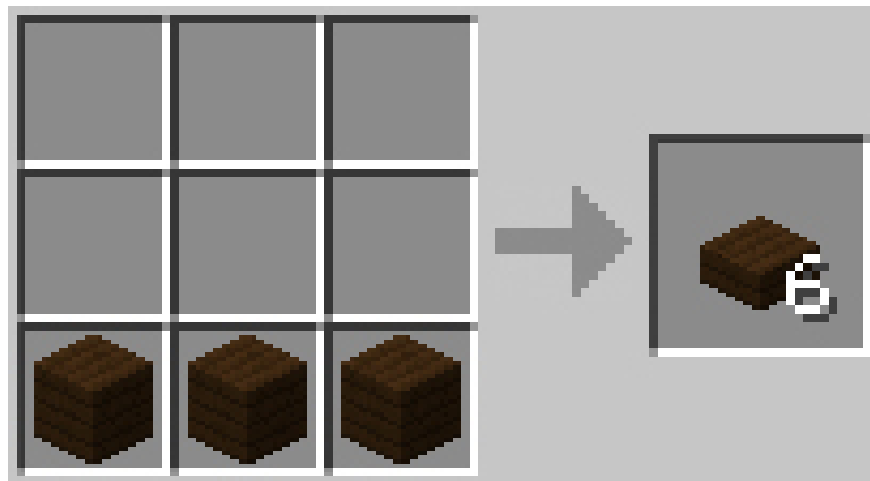

Boat

Made up of **5 wooden planks put together** , the boat will help you walk on the water without any harm.

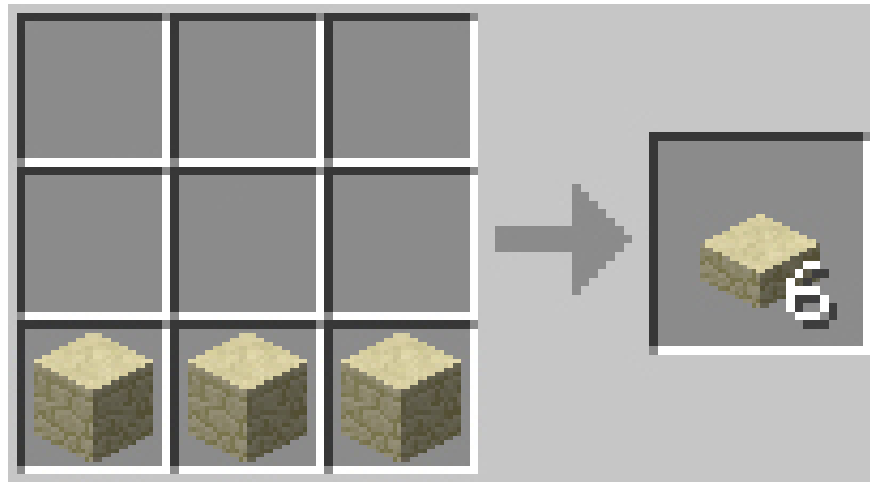

Wooden slab

It takes **3 blocks of wooden planks to produce 6 wooden slabs**, which are the basic palanquin in construction. Wooden planks are used to make long stairs. 2 wooden panels stacked on top of each other will create a block similar to a wooden plank block.

Stone slab

6 stone slabs are created from 3 blocks: Hardstone, Sandstone, Cobblestone, Block Brick, Stone Brick, Hell Brick, Quartz. This is also the basic material used in construction.

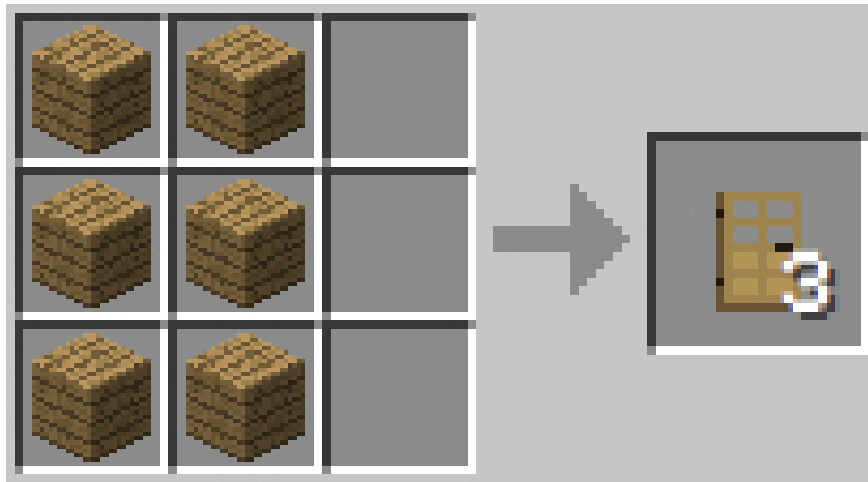

Signboard

We will need **6 wooden planks and 1 wooden stick** to create **3 signs** . This object is used to write names or write words on top.

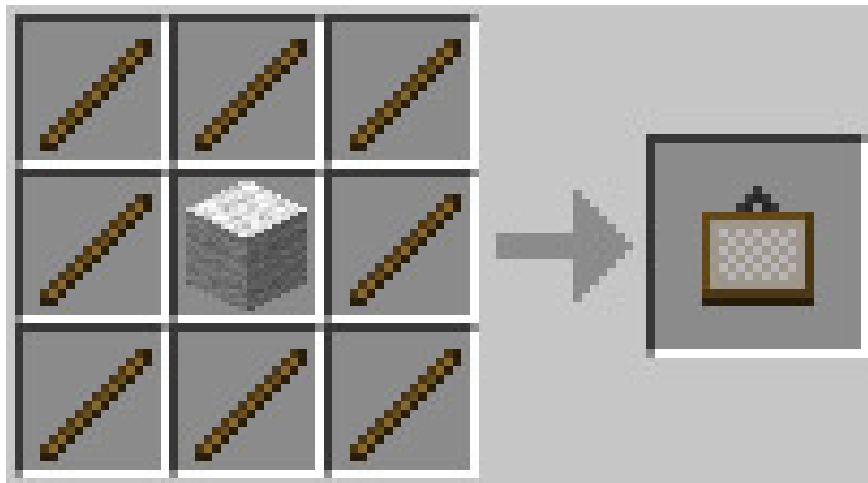

Door

6 wooden planks or 6 iron ingots will make 3 iron or wooden doors . Wooden doors can be opened by pressing or using a switch. The iron door can only be opened with a switch.

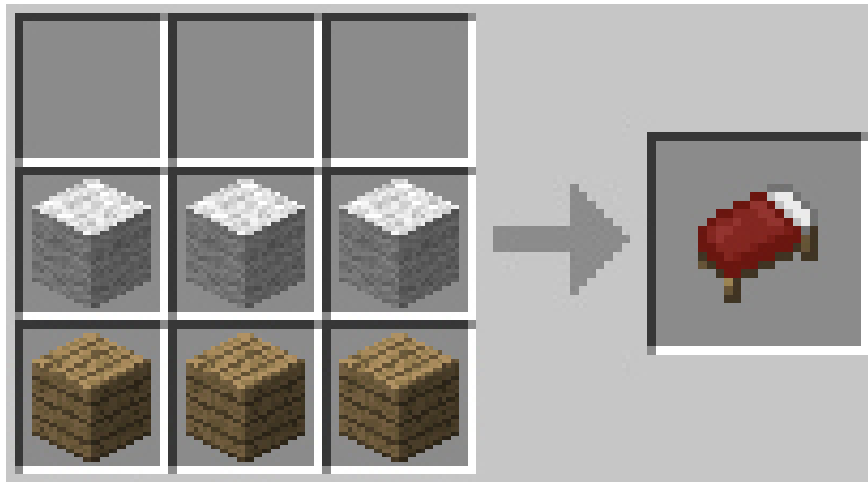

Picture

From **8 wooden sticks** and **1 wool**, a painting will be created for decoration.

Bed

3 wooden planks combined with **3 wool** will create **1 bed** . Used to sleep overnight, and to save respawn points if the character dies.

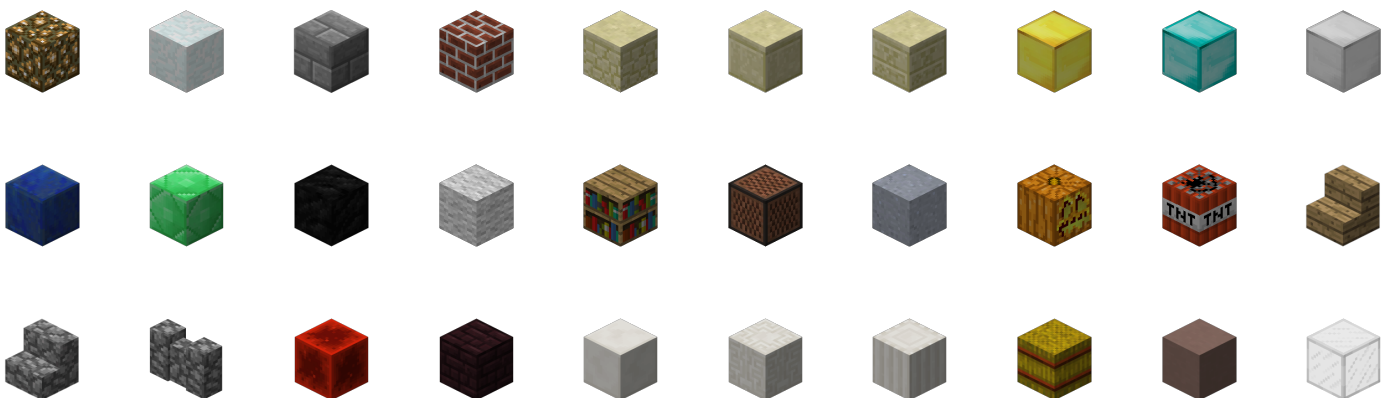

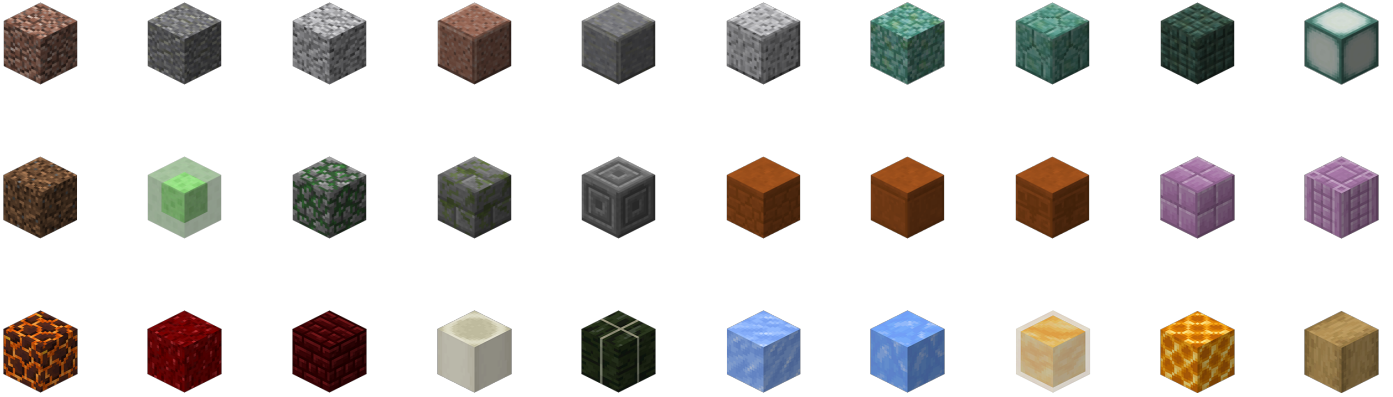

Create wood in Minecraft

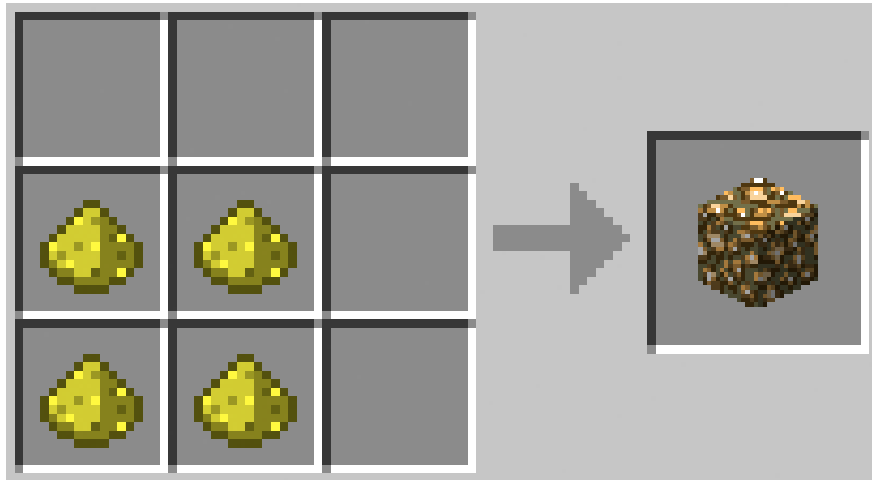

2. Minecraft formula to create blocks (blocks)
