## Why should every girl have a mini fridge with cosmetics?

As a girl, you must be using skin care cosmetics and make-up cosmetics. Because cosmetics are in direct contact with the skin, their quality must always be guaranteed to not cause any harmful effects. Want to keep cosmetics always good, not broken, metamorphosed, the preservation plays a very important role.

According to many experts, the quality of cosmetics is easily affected under the impact of environmental factors, especially temperature and sunlight. The higher the temperature, the faster the cosmetics will fail. Similarly, the more exposed the cosmetics to the sun, the easier it is to change the substance. That is why, cosmetic manufacturers always include sentences 'preserving products in a cool, dry place, avoiding direct sunlight exposure' on the packaging.

The preservation of cosmetics in the refrigerator will bring many benefits:

1. The cold air in the cabinet does not cause cosmetic changes
2. Avoid putting cosmetics in direct sunlight
3. Every girl should have a **mini fridge with her own cosmetics** because if you put cosmetics together with other foods, it will affect the quality of both.

## Things to keep in mind when using mini refrigerators with cosmetics

Here are a few notes to help you store cosmetics in the best mini fridge:

1. Types of cosmetics should be preserved in the refrigerator: eye cream, cosmetic spray, perfume, organic cosmetics (organic cosmetics), handmade cosmetics.  
Cosmetics should not be stored in the refrigerator: lead makeup, creams, liquid foundation cream, lipstick, mascara, cosmetic products containing oil.
2. The environment in the refrigerator helps cosmetics to be better preserved but does not mean to extend the shelf life of cosmetics. All cosmetics when expired, whether or not they are stored in the refrigerator, should not be used.
3. Always close the refrigerator lid tightly to avoid heat coming out, affecting cosmetic preservation effectiveness
4. It is recommended to classify cosmetics before putting them in the refrigerator to easily retrieve and avoid the smell

Each girl should equip herself with a mini fridge containing cosmetics so that they always maintain the best condition. Visit [META.vn](http://META.vn) for advice and order quality and cheap equipment.
