

MIUI 12: Highlights and an updated device list

MIUI 12 is the 10th anniversary version from the first day Xiaomi launched the MIUI interface, which is expected to launch in the fall of this year. MIUI 12 may be equipped with many upgrades in design, interface and features.

MIUI 12 is the 10th anniversary version from the first day Xiaomi launched the MIUI interface, which is expected to launch in the fall of this year. MIUI 12 may be equipped with many upgrades in design, interface and features.

Recently, a developer has suddenly revealed information about some of the prominent features of MIUI 12 on Xiaomi's official forum in China. However, these are only features included in the experimental version of MIUI 12 rather than the official version, so this information is for reference only.

The first features will be available on Xiaomi's MIUI 12
