

MobiFone is the fastest 4G network in Hanoi, Viettel is at the end

According to 4G quality test results of operators in Hanoi area published by Telecommunications Department on 30/01/2019, MobiFone is the fastest 4G network provider.

According to 4G quality test results of operators in Hanoi area published by Telecommunications Department on 30/01/2019, MobiFone is the fastest 4G network provider.

According to the test results of the telecommunications management agency, MobiFone has average download speed, uploading rate of 39.04 Mbit / s and 29.59 Mbit / s respectively. The average download and upload speed of Viettel is 22.65 Mbit / s and 21.79 Mbit / s, VNPT is 24.72 Mbit / s and 23.80 Mbit / s.

The telecommunication instrument divides Hanoi's 4G LTE quality measurement into two phases, the first from December 18 to December 21, 2018, the second phase starting from December 24 to December 27, 2018.

The basic indicators used by the telecommunications department to accurately measure the 4G speed include: the availability of wireless networks, the speed of uploading data up and down, the rate of data transfer is dropped .

The results showed that 100% of operators ensure compliance with technical quality standards, data download speed exceeds the standard of 1 Mbit / s, good coverage. Test results are publicly posted by the Telecommunications Department at www.vnta.gov.vn.

Previously, from June 14 to June 25, 2018, the Telecommunications Department also conducted 3G network testing of operators in Lang Son and Thai Nguyen provinces, Quang Tri, Quang Binh, Ben Tre and Tien Giang

provinces. The results showed that MobiFone has indexes that are higher than industry standards.
