

Mobile games are the most influential in the history of phone development

Below is a list of the most influential mobile games in the history of phone development, which are not the best games, the best graphics or the most popular but they have a great impact on player.

Below is a list of the most influential mobile games in the history of phone development, which are not the best games, the best graphics or the most popular but they have a great impact on player.

Snake

This is the first popular mobile game in history. Snake first launched in 1997 on Nokia 6610.

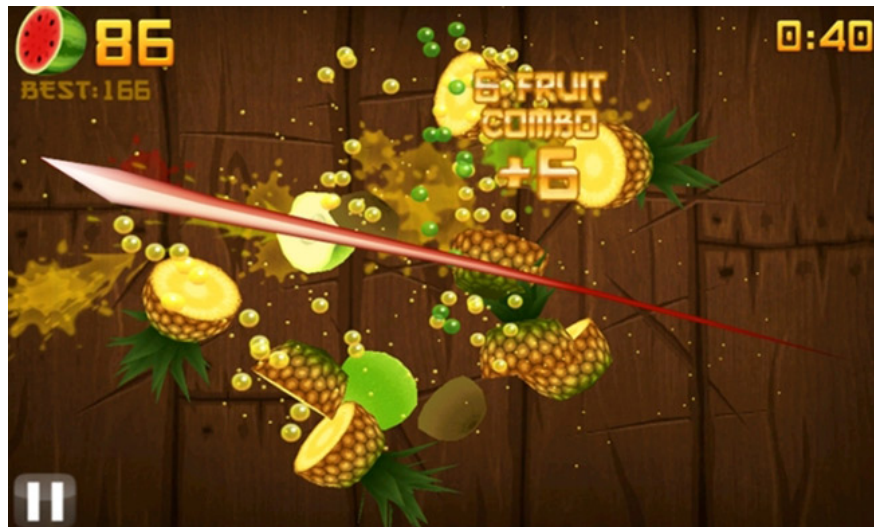

Although there is a very simple way to play, you only need to use the keyboard to control the moving snake so that you can eat as many black dots as possible, but Snake is extremely attractive to players. People even enlist all the time to play this game: on the bus, class .

Angry Birds

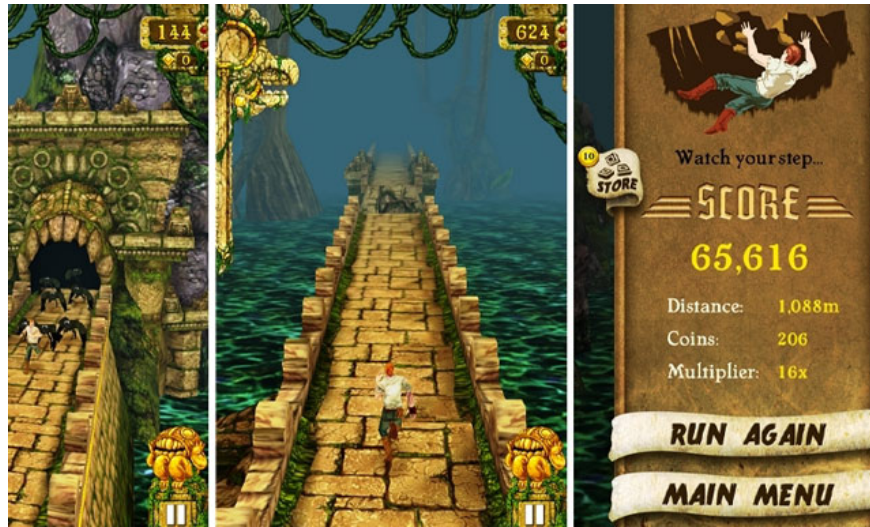

Angry Birds launched in December 2009 on Apple's iOS platform. With exquisite gameplay and how to create funny characters, Angry Birds quickly became the favorite game of young people and posted on most other platforms such as Android, PC and Console. In 2014, Angry Birds created a new record when it surpassed three billion downloads on all platforms it has.

Fruit Ninja

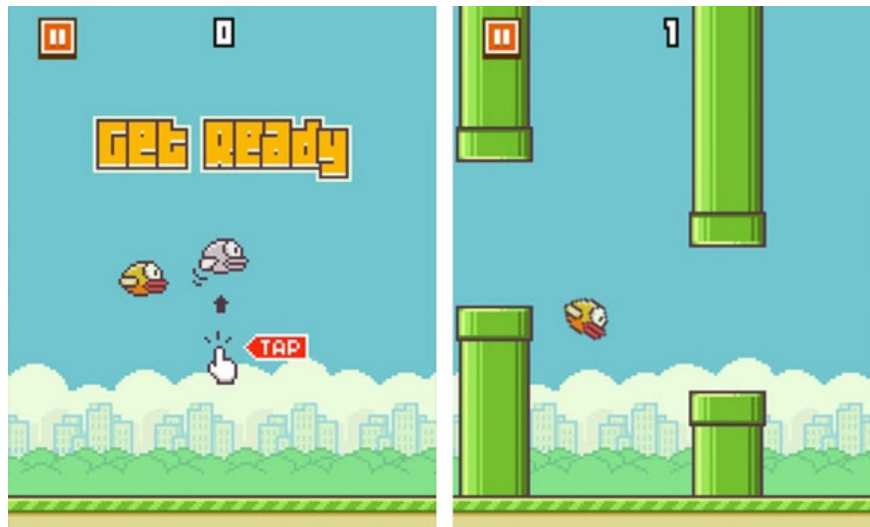

Fruit Ninja was released in 2010, when smartphones began to become popular. It is the development of smartphones and simple gameplay that has helped Fruit Ninja quickly attract large numbers of players and become the most influential title on mobile.

Temple Run

Temple Run first launched in 2011 on iOS platform. How to play the game is very simple, suitable for mobile devices. Players only need to use their fingers to control the game character to the left, right, slide up and down so it quickly attracts a large number of players. After that, it was brought to Android and Windows Phone 8. The success of Temple Run helped adventure game genre on mobile devices.

Flappy Bird

Although Flappy Bird does not stand out from most of the existing games on the iOS, Android or Windows Phone app store... bad graphics, normal background music, and based on the old 8-bit platform, it is a Great influential game in the world of mobile gaming. Flappy Bird is mentioned as an inhibitory game and became the inspiration of many later games. Even, Google was inspired by Flappy Bird to create Easter egg game on its platform.

Pokemon Go

This is the first interactive AR game, so when it debuted, it engulfed most other titles. The impact of Pokemon Go is so great that many places have to issue safe game recommendations to users.
