The interface and usage of Moon FM on the two versions are the same, the application has a very nice interface and does not contain annoying ads. It contains the main sections:

Listen Now:

The podcasts you are following will be displayed at the main interface of Listen Now. As you can see in the picture below, they are arranged day by day very easy to see and convenient for selection. If you are using Moon FM for the first time, you will be offered some podcasts or search for more radio stations and podcasts in Browse.

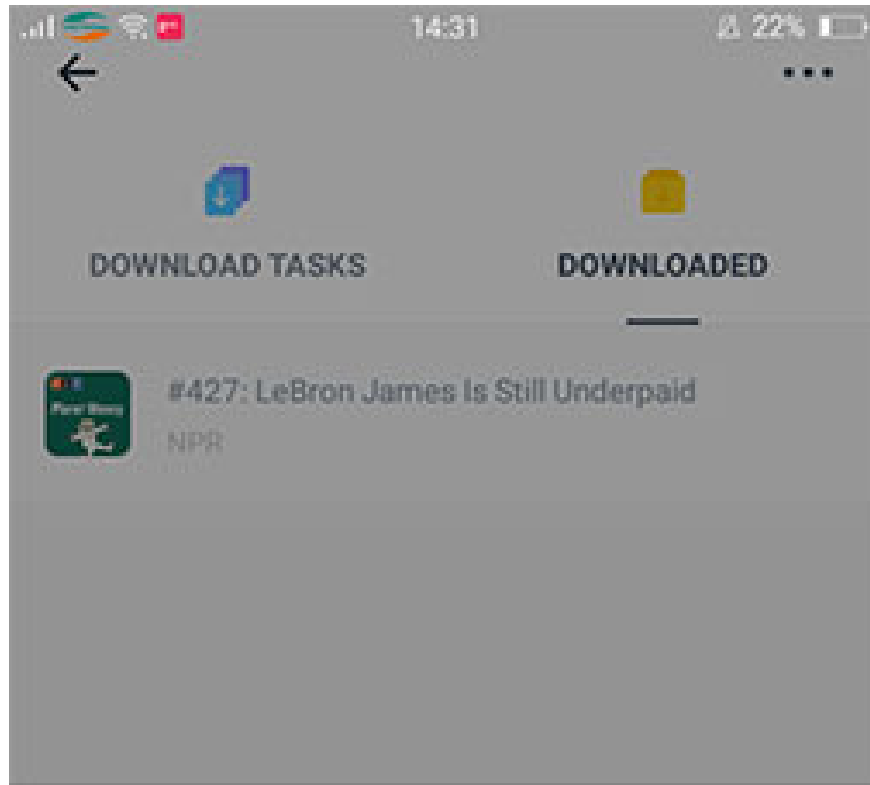

When you want to subscribe to a podcast, select your favorite podcast> click **Subscribe** . To view the radio episodes, switch to the **Episodes** tab and select **Play Now** to listen. All podcast channels on the program are supported for downloading, press **Save Episode** to save.

If you do not want to follow, open **Subscriptions**> **swipe podcast left**> **select Unsubscribe** . If you want to delete the previously downloaded podcast, select **Downloads**> **Downloaded**> **click on the program**> **Remove**

and you 're done.

Some functions when swiping on each podcast episode you should know:

1. Swipe left: Add to playlist, download, like.
2. Swipe right: Play, play next, play last.

In addition, Moon FM also added a timer feature when playing, it is similar to the way to turn off music on Zing mp3 to set the desired listening time, suitable for those who have a habit of listening to the radio. night. You just need to click **the crescent moon icon** on the control bar to select the time.

To enter the full play interface of the application, press **the radio icon that is listening or the radio icon on the right side**. You can also view radio and podcast playback links by **clicking on the cover image on the playback interface** .

Discover:

Go to the next Discover tab, which contains selected, selected podcast and radio channels. For radio, scroll down to see it. Select the **channel> Play Now** to play, select **Favorite** to mark the channel.

Browse:

You can look to Browse to select podcasts and radio stations by category and country. Most of the popular radio stations in the world are available on the application, while Vietnam radio stations have VOV, Xone FM and a number of local stations.

2. How to use Moon FM on the web

If you don't like downloading the Moon FM application to your mobile device, you can choose to listen to the radio on the web. Just go to the address <https://www.moon.fm> , then click **Login** to log in to use the full function as the mobile version.

Please note, you must have an account to be able to listen to the radio on Moon FM. However, if not, you can still get the link of your favorite radio, podcast and play it with another program like VLC. In the Radio section, select **Live Radio** and proceed to search for radio channels through filters. When you find the radio channel, press **the three dots button** > select **Open Stream URL In New Window** and copy the link or download the file pls / m3u8.

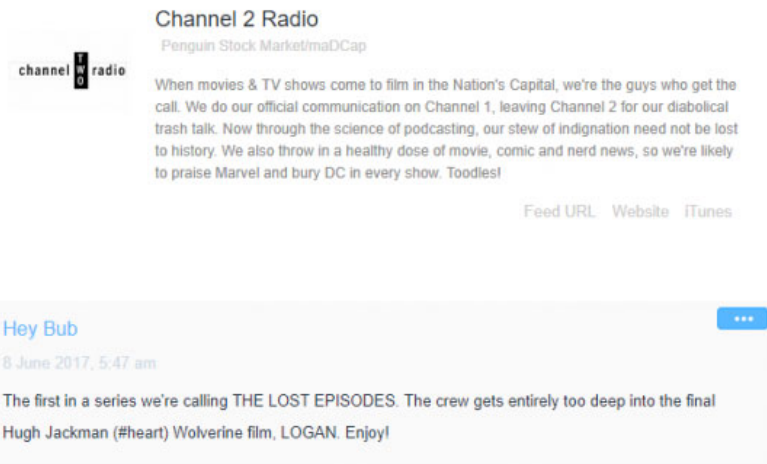

KDIS Radio Disney 1110 AM - United States of America

Open With Moon FM Apps

Open Stream URL In New Window

In the Podcast section, select the desired podcast program. Soon after, you will receive the link for RSS, iTunes and website. You can download radio episodes in the podcast by pressing **the three dots button** > **Open Stream URL In New Window** .
