

# Mountain Lion market share exceeded 10% in just 1 month

Chitika said that just a month after Apple released the latest version of the OS X operating system, Mountain Lion, which has won more than 10% of the total of all Mac computers. now on.

**Chitika said that just a month after Apple released the latest version of the OS X operating system, Mountain Lion, which has won more than 10% of the total of all Mac computers. now on.**

## Mountain Lion OS X

Chitika pointed out that, within the first four days of its appearance, Mountain Lion has won 5.65% of OS X's total web traffic, and since then the Mountain Lion has grown. very solid.

On August 27, the latest version of OS X above reached a "peak " of 10.3%, and continues to surpass the performance of senior OS X Lion when it takes three months to hit the 14 %

Chitika said in the report: ' *Mountain Lion has surpassed the 10% market share after only one month. With this momentum, the latest OS X version will surpass Lion's achievement in just three weeks.* '

According to Chitika, the reason why Mountain Lion is so popular is because this OS X version is equipped with many new features, with positive reviews from experts and public opinion.
