

# Mozilla launches a new browser called Firefox Preview, fast browsing speed and smooth running

Today, Mozilla has launched a new browser, a next version of Firefox, with more enhancements and security called Firefox Preview.

Today, Mozilla has launched a new browser, a next version of Firefox, with more enhancements and security called Firefox Preview.

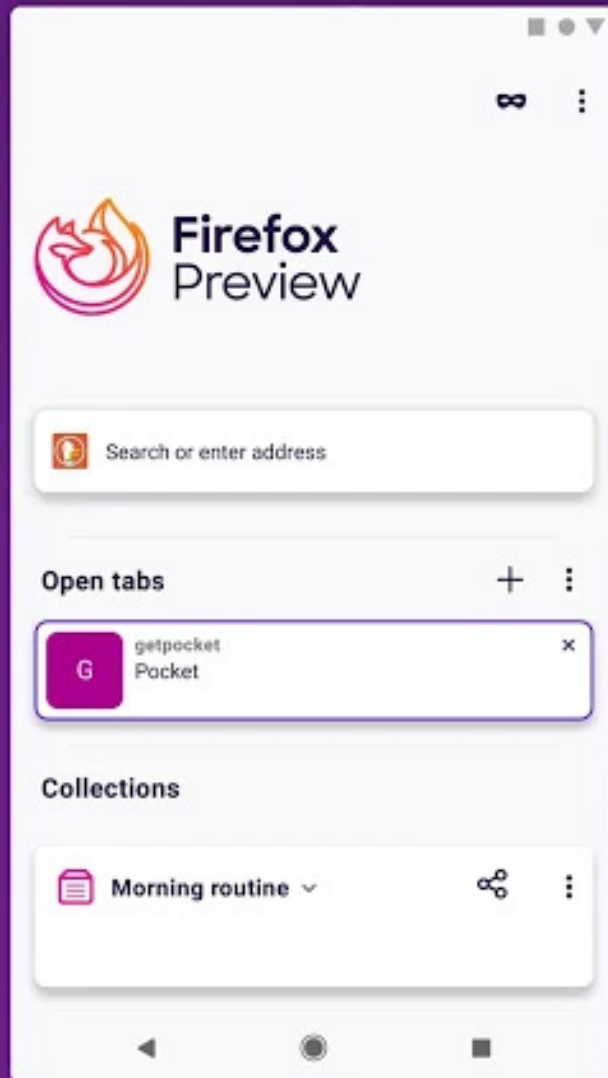

According to information provided by Mozilla, Firefox Preview is still fully equipped with Firefox's features, even with the same security and privacy capabilities as Firefox Focus, but has twice as fast browsing speed than Firefox. on Android. In addition, Mozilla's new browser can secure personal information and browsing history for users because it is equipped with features to prevent Internet companies from tracking them.

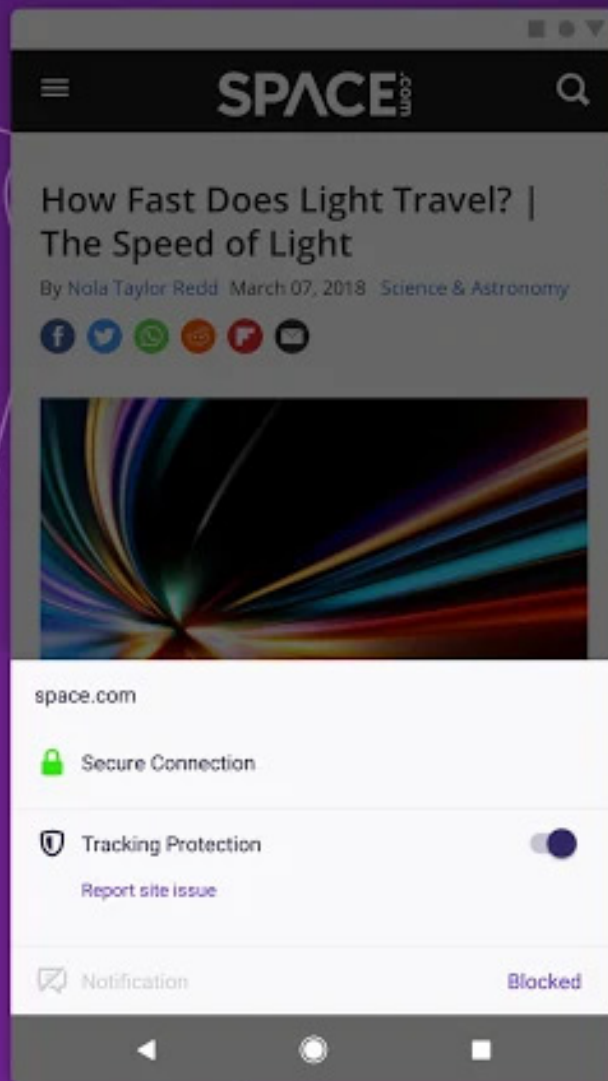

Firefox Preview has a minimalistic interface with the navigation keys underneath, providing convenience for users during use.

One of the noteworthy new features on Firefox Browser is Collections, users can save the work being done on the web, then share with other platforms.

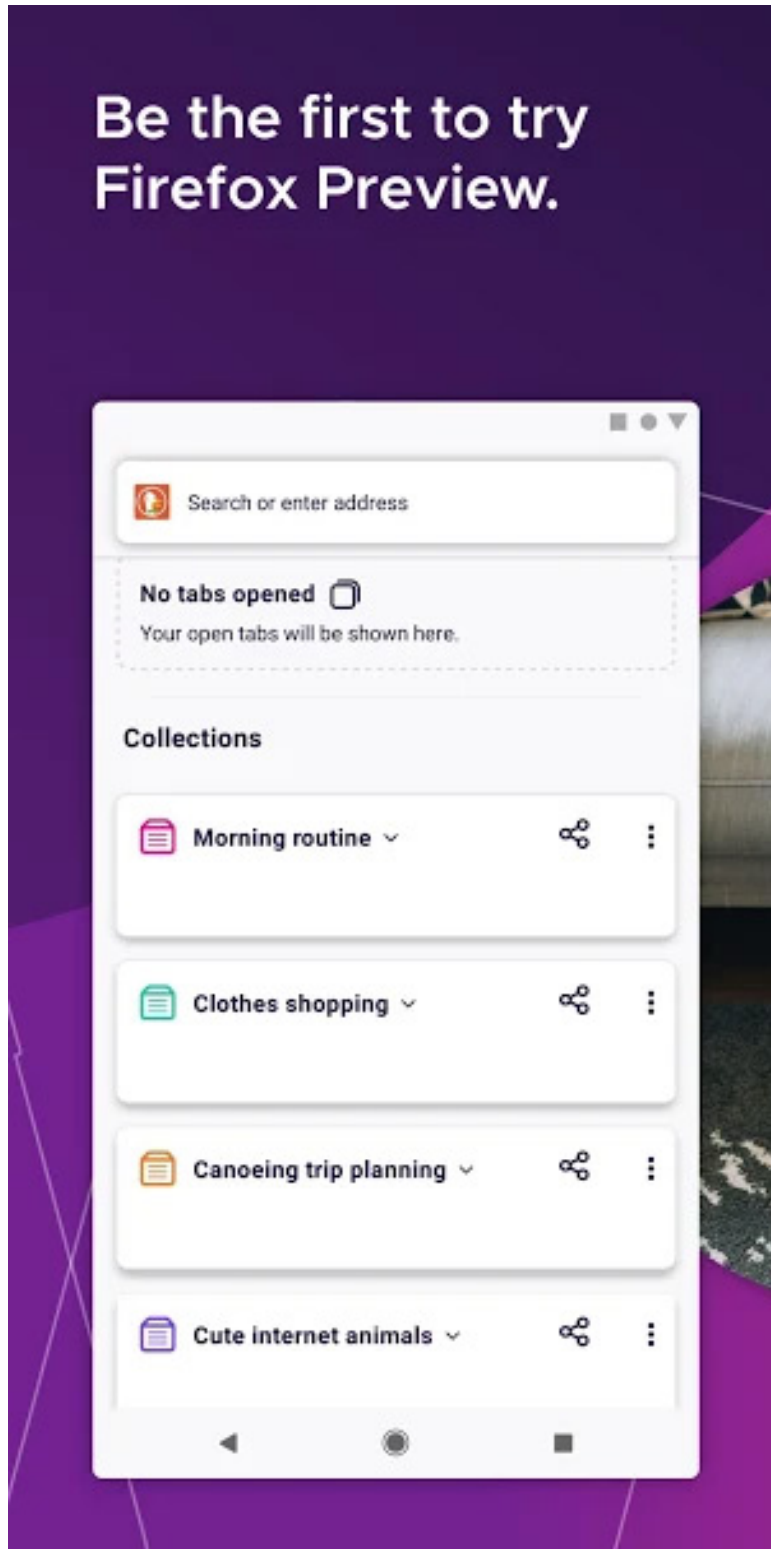

Firefox needs YOU  
to help test our new  
mobile browser.

Test the speed,  
privacy and new  
features.

# Be the first to try Firefox Preview.

However, Firefox Preview is currently only a semi-trial version. Mozilla wants to bring this browser to users and developers soon. However, Mozilla's new browser with fast browsing speed and smooth running, has received many positive reviews from experts.

Currently, Firefox Preview is available on Google Play, you can access the link below to download and experience.
