This machine fully integrates office and entertainment functions with 14-inch screen, HD resolution.

EX460-037XVN integrates standard N wireless network card (802.11N) for fast access speed.

EX460-037XVN belongs to MSI Entertainment Series laptop series. It owns 14-inch LED Backlight screen, HD resolution of 1,366 x 768 pixels, 16: 9 HD display ratio combined with image enhancement technology so the screen of EX460 is brighter, sharper and more detailed , especially suitable for watching HD videos and running 3D graphics applications.

Equipped with Intel Core 2 Duo processor, large capacity hard drive, ATI HD4330-512MB discrete graphics card, EX460-037XVN is the right choice for work and entertainment, especially graphics applications and play games.

The keyboard is designed with EDS Ergonomic standard with curved surfaces and keys, 51% larger keys than regular notebook keyboards, reducing the load on the fingers when typing, creating a comfortable feeling during use. .

EX460-037XVN integrates standard N wireless network card (802.11N) for fast access to high resolution webcams, stereo speakers, so you can attend remote seminars. Especially, the machine can open 180 degrees, so it is very convenient for presentations.

Compact, dynamic design (volume of about 2 kg) is very suitable for moving.

The case is manufactured with CFP (Color Film Print) technology for sharp, durable and high gloss patterns but not "eating" fingerprints that make the exterior of the computer always look shiny. Compact, dynamic design (volume of about 2 kg) is very suitable for moving.

In addition, MSI EX460-037XVN is equipped with ECO Engine technology that allows users to adjust operating modes according to the actual situation and the need to extend battery life. Just press the ECO button (F5) to switch between presentation modes (slide show), gaming (gaming), word processing (word processing), cinema (watching movies), and turbo battery (details) battery saver).

The drawback of EX460-037XVN is that when the speaker is turned on in loud sound mode, the sound quality is not good. However, EX460-037XVN is an entertainment laptop with quite a strong configuration, featuring components that support 3D graphics and HD video so it is the ideal choice for many consumers.
