

Netbooks run both Windows 7 and Android

The Acer Aspire One D250 netbook is not only preinstalled with Windows 7 operating system but also runs Google Android with dual boot mode.

The Acer Aspire One D250 netbook is not only preinstalled with Windows 7 operating system but also runs Google Android with dual boot mode.

Aspire One D250-613 owns a machine configuration that is not much different from the netbook models available on the market with 10.1-inch screen with 1024 x 600 pixel resolution, equipped with Intel Atom N280 1 CPU, 66 GHz, 2 GB RAM, 160 GB HDD, 802.11b / g Wi-Fi connection and 6 cell 5800 mAh battery with running time of up to 9 hours. The device measures 204.2 x 258.3 x 25.4 mm and weighs 1.2 kg.

But the difference and originality of this new netbook is the ability to run two operating systems. In Dual Boot mode, users can easily run Google Android to experience the display interface and capital applications that only know a lot on mobile phones, or switch to Windows 7 operating system to implement the familiar work.
