Why can't I enter the giftcode?

If you get an error when entering the code, it could be for one of the following reasons:

1. **1. Expired code:** Giftcode has a time limit. Newbie code is long but event code a few days old may have expired, you need to check the event time or enter the code to see if the code has expired or not.
2. **2. Used code :** Each account can only enter 1 time/code, if you accidentally enter it on another account, you cannot use it again.
3. **3. Entering the wrong code:** If you type an extra space, miss a letter, or type svip999 instead of SVIP999, it will fail. Pasting the correct code is the safest.
4. **4. Entered incorrect account:** You play with Facebook/Zalo account but entered giftcode on another Soha account ? gift does not appear.
5. **5. Entering when not qualified:** Some codes require a certain level (for example, level 10 to enter) or completing the newbie quest.

How to hunt for more good codes?

In addition to the newbie codes, you can also receive giftcodes through the following channels:

1. **Official fanpage:** Good games, minigame code distribution, like/share events ? follow to not miss out > facebook.com/kiemhiepautochess.
2. **Community Group:** A place to share team building tips, early giftcode leaks, and get help with anything you ask.
3. **Zalo group:** Some closed Zalo groups only give out codes to members, so if anyone wants the full code, please join.
