

New design for HP laptop

Not only did it launch two additional 16 and 18.4 models of the high-end HDX Dragon multimedia laptop, HP also unveiled four new design styles, with curving motifs imprinted on the case.

Not only did it offer two additional 16 "and 18.4" models of the high-end HDX Dragon multimedia laptop, HP also unveiled four new design styles, with curving motifs imprinted on the case.

All were released by the world's largest computer manufacturer in an event called HP Engage Excite Experience, which was held in Singapore. Accordingly, four new sinking designs named Fluid (liquid), Intersect (intersection), Intensity (Renewal) and Renewal (reborn) are in turn worn by HP, while new multimedia laptops are HDX, Pavilion DV3500 and special versions of DV4, DV5 series.

Last week, in a New York fashion show, HP also introduced a 10-inch netbook with a red design printed with stylized flowers. However, there has not been an official announcement released from the world's largest computer company on this netbook model.

Here are the new series of laptops with HP's new design style.

HP HDX16 has a 16-inch screen, full-HD resolution (1,920 x 1,080 pixels), equipped with an Intel Core 2 Duo 2.8 GHz processor, 8 GB of RAM, 400 GB hard drive, Blu-drive Combo rails capable of reading Blu-ray discs and burning DVDs.
