

New Kassie Free Fire character skill in version OB45

Kassie is a new character in the tactical shooting game Free Fire, she has healing skills that will be updated in version OB45. Join Taimienphi to learn detailed information about Kassie Free Fire character skills through the following article.

As always, each version of Garena adds a new character to make the game more attractive. In this version of FF OB45, Kassie's appearance will make the game meta change and become more attractive.

Detailed skills of Kassie Free Fire character

The new Kassie character skill in Free Fire is an Active skill that has the ability to automatically restore HP every second along with your teammates. When reused, it will activate the ability to restore 100HP, very suitable for those who frequently play in groups with friends.

- **Skill:** Active Status
- **Skill details:** Create a healing link with a teammate to restore 3HP/s for yourself and your teammates. Reactivate the skill to instantly restore 100HP to allies. (Skill will automatically be used if allies' HP falls below 50. The amount of healing will be 50% valuable when used manually).
- **Skill cooldown:** 60 seconds.

More specifically, Kassie's skill also automatically activates if a teammate's health drops below 50HP, making it difficult for them to be defeated with just a few shots. Currently this character only appears in the OB45 Free Fire Advance Server version, if you can download the APK file and install, try playing Kassie before adding it in the new version.
