

New mode Sandbox PUBG allows players to fly, call a car, get weapons ...

Sandbox Mode PUBG mode allows gamers to call cars, grab weapons, freely fly like a bird and also perform other effects.

PUBG gamers can now fly like birds in Sandbox mode, not only that. In addition to flying, gamers can also summon vehicles such as Buggy, Dacia, BRDM-2, motorcycles .

This Sandbox mode will be added by the developer to the list of game modes available on PUBG PC. It is expected that this PUBG "flyer" mode will be updated in the new version in the next few days. The reason the Sandbox Mode is updated for gamers is to want the player to be able to experience all the content in the game.

Specifically, you can stand still and call out cars, weapons, vehicles, accessories, recovery items, items such as armor, backpacks . Even your character can choose effects such as yellow effect ring, fly, call redzone .

Compared to hacking tools, the tool in Sandbox mode is not much different. But the only difference is that the developer agrees with the developer. Only one thing, this mode will be limited to players.

So those who can play SandBox Mode, according to the announcement on the homepage, SandBox Mode can only be created by PUBG Partners (PUBG Partners). As such, ordinary players will not experience this fascinating game mode.

However, these are only initial expectations because this mode is still in the test server. Let's wait for the official update to see if Sandbox mode will be available to players.

1. What type of gun is most effective when destroying armored vehicles BRDM-2
2. Configure PlayerUnknown's Battlegrounds to play on the computer
3. How to choose when to use weapons thrown in PUBG
