Reasons why you can't redeem code for rewards

You may encounter the following problems when changing the code:

1. The code has expired, especially if it is a giftcode from previous events.
2. Game code is not valid for Vietnamese version, only applicable for global version.
3. Giftcode has been used before, each code is usually only used once.
4. Account level or condition requirements not met.
5. Technical error or server problem, you can report the error via the comment section for support.

How to get more giftcode

To get more giftcodes, you can:

1. Follow the game's official social media page, if available (no specific page found yet, but can be contacted via email app@weplaysoft.com according to information from Google Play).
2. Participate in events or promotions organized by Weplay Software.
