

New power on Acer Aspire

Fast multitasking, less heat and low power consumption are the advantages that the new generation AMD chips bring.

Acer Aspire 4253 and Acer Aspire 4552 are powered by the AMD platform.

Fast multitasking, less heat and low power consumption are the advantages that the new generation AMD chips bring. Two new models of Acer in turn use AMD Dual-Core Processor E-350 (1.6 GHz) and AMD Dual-Core Athlon P360 (2.3 GHz) chips, thus, Aspire 4552 has a lot of heavy programs. for a while, while the AMD platform allows the Aspire 4253 to operate with very high performance at an impressive low power consumption - 18W.

The two models also include 1GB of RAM with fast DDR3 transfer speeds, 320GB hard drives and built-in DVD drives that can read and read well.

Graphics card is also a factor in these two models, while Aspire 4552 owns the popular card series ATI Radeon HD 4250, the Aspire 4253 is also equipped with the powerful AMD Radeon HD 6310 Graphics card. . Both offer powerful graphics processors that allow the machine to perform outstanding image, video or game tasks.

In order to excel at the high-end HD enjoyment of the AMD platform, Acer equips both new models with 14-inch HD LED technology with a resolution of 1,366 x 768 pixels, allowing users to experience the dark. Multi-sharpness and smoothness of images on every footage.

Thanks

Thanks to AMD's new APU E-350 platform technology, Aspire 4253 takes advantage of this platform, which is a very long battery life, up to 4.5 hours, while in Aspire it is 3 hours. 20 minutes.

At the same time, Acer does not forget to equip these models with the latest proprietary technologies such as Acer InVilink Nplify 802.11 b / g / n Wi-Fi and various connections such as 10/100/1000 mbps LAN, Bluetooth, HDMI, Acer SignalUp allows users to work effectively anywhere.

In addition to its superior features, these two Acer laptops are also loved by the elegant appearance and compact design (only 2.2kg), which is suitable for the mobile entertainment and working needs of the company. the number of consumers today.

Acer Aspire 4253 costs: 8,590,000 VND and Acer Aspire 4552 is 8,890,000 VND.
