How to redeem code for rewards

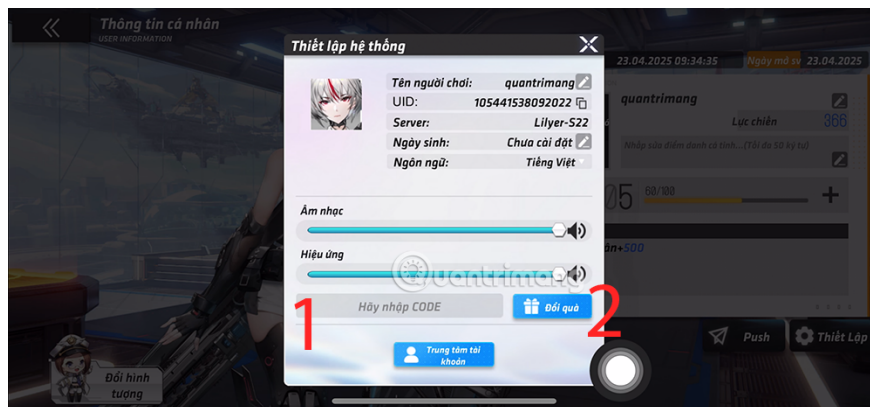

Step 1: Select Profile Picture in the upper left corner.

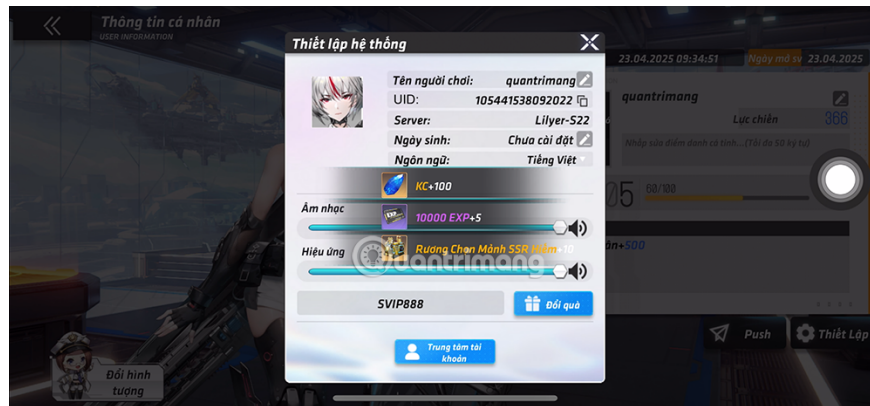

Step 2: In the Character Information interface, select Settings.

Step 3: In the System Settings section > enter all the codes in the code table above into the code exchange box (1) and then select Redeem Gifts (2) to exchange the code for a reward.

If the code you redeem is still valid, you will receive the reward immediately.

Why can't the giftcode be redeemed?

There are several common reasons why giftcodes cannot be redeemed successfully:

1. **Expired Giftcode** : Each giftcode usually has an expiration date, and after it expires, the code will no longer be valid.
2. **Previously Used Code**: Some giftcodes can only be used once per account, so if you have redeemed them before, you will not be able to redeem them again.
3. **Incorrect code entry**: Players may enter the wrong characters or not distinguish between uppercase and lowercase (for example, "ABC123" and "abc123" may be considered different). In Scarlet Girl, the game is not case sensitive but you still need to pay attention to the spaces at the beginning and end of the giftcode.
4. **Ineligible**: Some giftcodes require players to reach a certain level or complete certain tasks before they can be redeemed. Or the correct server is required to redeem the code for rewards.
5. **System error**: In rare cases, errors from the server or game system may prevent the gift code from being redeemed. At this point, you can only wait for the technical department to fix the error before redeeming the code.

How to get more Scarlet Girl giftcode

To receive more giftcodes, you can refer to the following channels:

1. **Official media channel:** Follow the game's fanpage on Facebook, such as Scarlet Girls VN, to receive the latest giftcodes from the publisher.
2. **Game websites and forums:** Reputable websites like TipsMake.com.com often update new giftcode lists and instructions on how to redeem them.
3. **In-game events:** Participate in special in-game events to receive giftcodes or direct rewards.
4. **Game Community:** Join groups or forums for "Scarlet Girl" players to share and exchange giftcodes.
5. **Partner promotions:** Sometimes, publishers cooperate with partners to release exclusive giftcodes, usually announced through official channels.

Based on the information above, you will have an easy time at the beginning of the game, not to mention a series of features that help you receive rewards in Scarlet Maiden.
