

Nice laptop and personality

MacBook Air and Dell Adamo represent ultra-thin designs, while Vaio P or TT are compact yet powerful

MacBook Air and Dell Adamo represent ultra-thin designs, while Vaio P or TT are compact yet powerful

In addition to the race to equip the terrible equipment, for gamers, laptop design, fashion with the difference in design is also introduced continuously in recent times.

A personal laptop is not only colorful, but must be thin, compact, possessing powerful features, "unique" hardware devices. The MacBook Air launched last year, but still the benchmark of a coveted laptop, Dell's Adamo features a super-slim design, while Vaio P is different from the neat.

Here are the 5 most beautiful and stylish laptops designed today.

1. Apple MacBook Air (Core 2 Duo 1.86 GHz, 2 GB RAM, 13.3 inches)

MacBook Air with slim design. *Photo: Reuters* .

After the introduction of the MacBook Air early last year, at the end of 2008 Apple continued to "revise" this model more completely. The MacBook Air is a "desirable" laptop for "Apple" fans, which is not only thin, and

still very light, it has an SSD hard drive and has strong performance.

The drawback of Air is its non-removable battery, limited expansion, mini-DisplayPort port, which Apple equipped is not popular.

Reference price: 1,700 USD.

2. Dell Adamo (Core 2 Duo U9300 1.2 GHz, 2 GB RAM)

Adamo is the world's thinnest laptop. *Photo: Dell* .

Adamo does not follow Dell's long style of "stone pot", this is a sexy laptop, influenced by Apple with the frame of the MacBook Pro but vying with MacBook Air in terms of thinness. Beyond the "Apple" laptop and the HP Voodoo Envy 133, the Adamo is the thinnest model today.

Dell's 13-inch high-end laptop this year is priced at \$ 1,999 or more.

3. HP Pavilion dv2 (1.6 GHz AMD Athlon Neo MV-40, 2GB RAM)

Pavilion dv2 owns the latest AMD processor. *Photo: **Laptopicker*** .

The Pavilion dv2 is HP's new laptop model launched this year, a pioneer in the use of AMD's latest Yukon platform. Machine is only 25 mm thin, powerful in entertainment.

The Pavilion dv2 features a 500 GB hard drive, integrated WWAN connectivity, Qualcomm's latest Gobi wireless connectivity chip, making it easy to choose the right network. This model costs only 699 USD, if you want a Blu-ray reader, you have to add money. dv2 will be available in April this year.

4. Sony Vaio P series (Intel Atom Z530 1.6 GHz, 2 GB RAM)

Vaio P compact but wide keyboard. *Photo: Techontips .*

Running on the Atom processor, but Vaio P is different from the same model, this is a netbook that is not cheap, impressive by elegant design, thin and wide keyboard. In addition, the Vaio P also has a high-resolution screen, many connectivity options that look more sexy than the generation of its UMPCs.

The two weaknesses of Vaio P are the pre-installed Windows Vista operating system and the control trackpoint in the middle of the screen is not ideal.

Vaio P in Vietnam market is priced from 900 to 1,200 USD depending on configuration.

5. Sony Vaio TT series (Core 2 Duo SU9400 1.4 GHz, 4 GB RAM)

Vaio TT has many powerful equipment. *Photo: Netbook-review*

Vaio TT series is currently the world's smallest laptop running Blu-ray. Not only that, with only 11.1-inch wide screen, this 1.3 kg heavy model also possesses a bright carbon fiber outer shell, battery power up to 11 hours.

Use Centrino 2 processor, HDMI connector, SSD drive and screen 16: 9 ratio, but the price of Vaio TT is expensive.
