

Nokia Lumia 720 and 520 launched at MWC, sold in the second or third quarter

According to information from Softpedia technology site, Nokia is preparing to launch some products of the Lumia line including Lumia 720 and 520.

According to information from Softpedia technology site, Nokia is preparing to launch some products of the Lumia line including Lumia 720 and 520.

The two smartphones will be introduced at the Mobile World Congress (MWC) by the Finnish phone company in Barcelona later this month, while the expected release time is in the second or third quarter of this year.

Lumia 720 (code-named RM-885) and 520 (codenamed RM-914) leaked some specifications, but the accuracy is still a big question mark. Specifically, the Lumia 720 will likely be equipped with Qualcomm Snapdragon S4 Play processor clocking from 1 to 1.2 GHz, Adreno 225 graphics or Adreno 305, 1 GB of RAM.

KETERANGAN:
 Dengan Nomor Menu Ekas BREV seperti yang terdapat dalam tabel di atas, proses Penawaran Swafinansia dapat dikonfirmasi ke Direktorat Standardisasi Pos dan Informatika, Direktorat Jenderal Sumber Daya Perangkat Pos dan Informatika, Gedung Saptia Personel Lantai 8, Jln. Medan Merdeka Barat No. 17, Jakarta Pusat, Telp. 021-393-5840 atau 021-393-5846.

The device has a screen range of 3.8 to 4 inches, a resolution of WVGA 480 x 800 pixels, a battery of 1400 - 1500 mAh, with front camera support, equipped with 4G LTE wireless connection and running Windows Phone 8 operating system.

Meanwhile, Lumia 520 will have a 4-inch screen, also uses the same processor and graphics as its brother Lumia 720. This smartphone owns a 5 MP main camera and has 4 GB or 8 internal memory GB. The device is installed with Windows Phone 8 operating system, operating with a 1300 mAh battery.

Lumia 720 is rumored to sell for between \$ 299 and \$ 349 (equivalent to 6.3 million to 7.2 million). Lumia 520 will target the low-end segment at a price of about 199 USD (equivalent to 4.2 million VND). However, if you look carefully, we will see the mismatch between the configuration and the price of both machines.

It may take a while to wait for accurate information around these two products. But from now on, users who know in the near future will have new devices to choose from.
