

Nokia X6 sold out in just 10 seconds in China

Nokia recently introduced X6, the first attempt to put rabbit ears on its products like many other Android devices.

Nokia recently introduced X6, the first attempt to put rabbit ears on its products like many other Android devices.

The first opening of the sale took place today suddenly witnessing the product out of stock in just 10 seconds. Official account of Nokia Mobile China Weibo reported that they sold 700,000 phones in just 10 seconds. Nokia confirmed that the next sale will be on May 30. Recently Nokia also announced it will bring Nokia X6 to the globe.

Nokia X6 is a mid-range phone with premium design. It is equipped with a 5.8 inch full HD + screen ((1080 x 2280 pixels) at a ratio of 19: 9. This is the first Nokia device to have "rabbit ears" and has a 16MP front camera with face unlock feature. .

The first day of sales in China has consumed 700,000 Nokia X6

On the back, the Nokia X6 has a dual camera with a standard 16MB camera and a 5MB monochrome sensor, along with a fingerprint sensor. Nokia X6 runs 1.8GHz Snapdragon 636 SoC processor, including 3 versions of 3GB, 4GB and 6GB RAM with 2 internal memory options of 32GB and 64GB.

Nokia X6 has a hybrid slot for expandable memory, 3060mAh battery and USB-C connector that supports Quick Charge 3.0, running Android 8.1 and will receive the upcoming Android 9.0 P update.

This is the first X Series product that HMD Global offers. The starting price of X6 is around 204USD and the highest price is 266USD.
