

Non-jailbroken phones can still experience hundreds of free TV channels on iOS and Android

This article will guide you to watch free online TV with lots of Vietnamese channels on your iPhone or iPad without having to jailbreak the device.

Nowadays, the need to watch TV on users' smartphones is increasingly popular because of the convenience that it brings. Just a phone connected to the Internet, you can watch TV wherever you go.

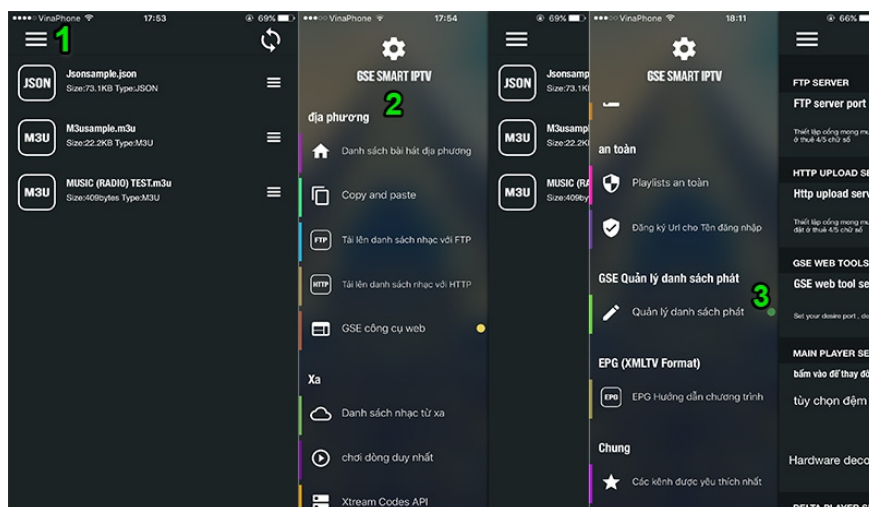

In some previous posts, Network Administrator introduced Top users to watch TV on phone, but in this article we will guide you to watch free online TV with lots of Vietnamese channels on good iPhone. iPad without having to jailbreak the device with a simple but free application is GSE Smart IPTV.

Proceed as follows:

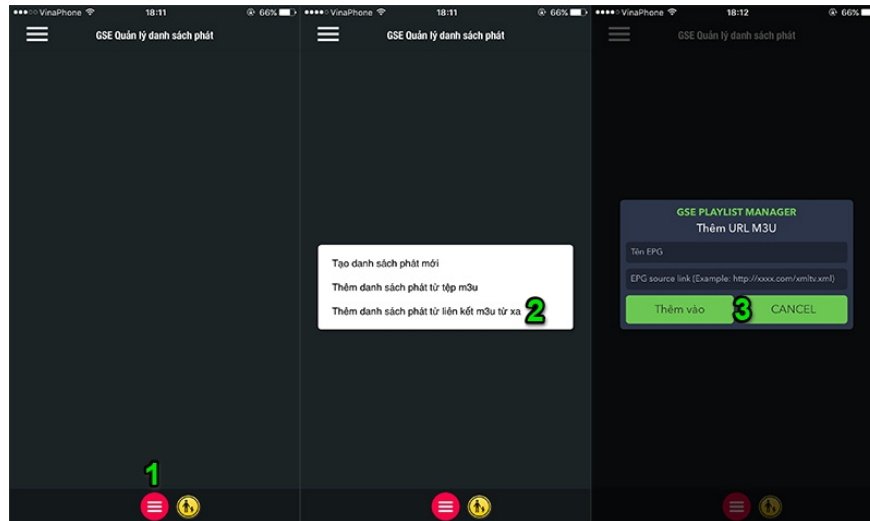

Step 1 : First, you need to download GSE Smart IPTV application to your phone according to the link below:

1. Download GSE SMART IPTV for iOS
2. Download GSE SMART IPTV for Android

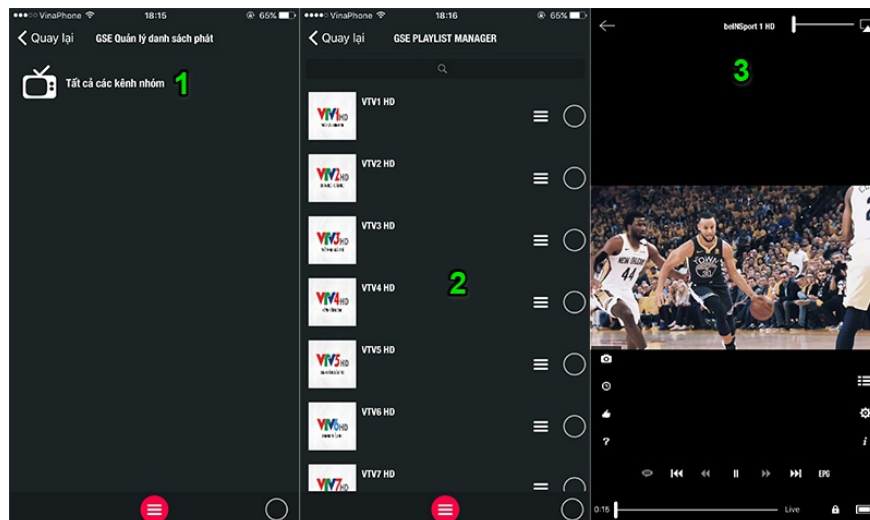

Step 2 : After downloading the application to complete, open the application and click on the **menu** button at **3 horizontal marks**> **select Playlist Manager** .

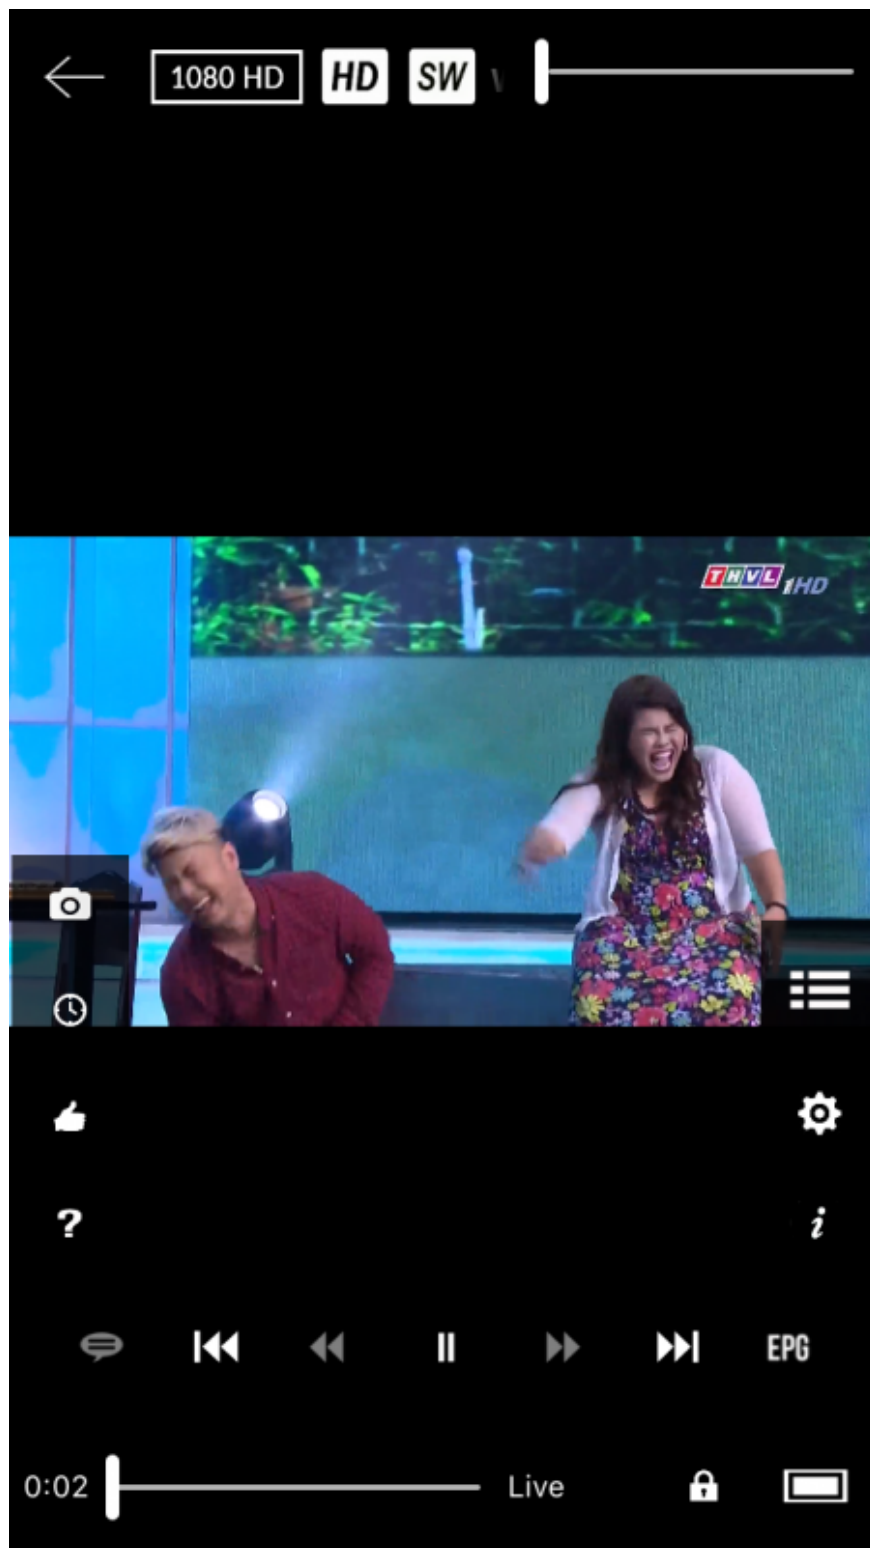

Step 3 : Continue to select the **pink menu** button > **select add playlist from remote m3u link** . Now the system will ask the user to name the playlist, and enter the URL into the system, you can enter the URL as <http://xemtv.club/gse.txt>

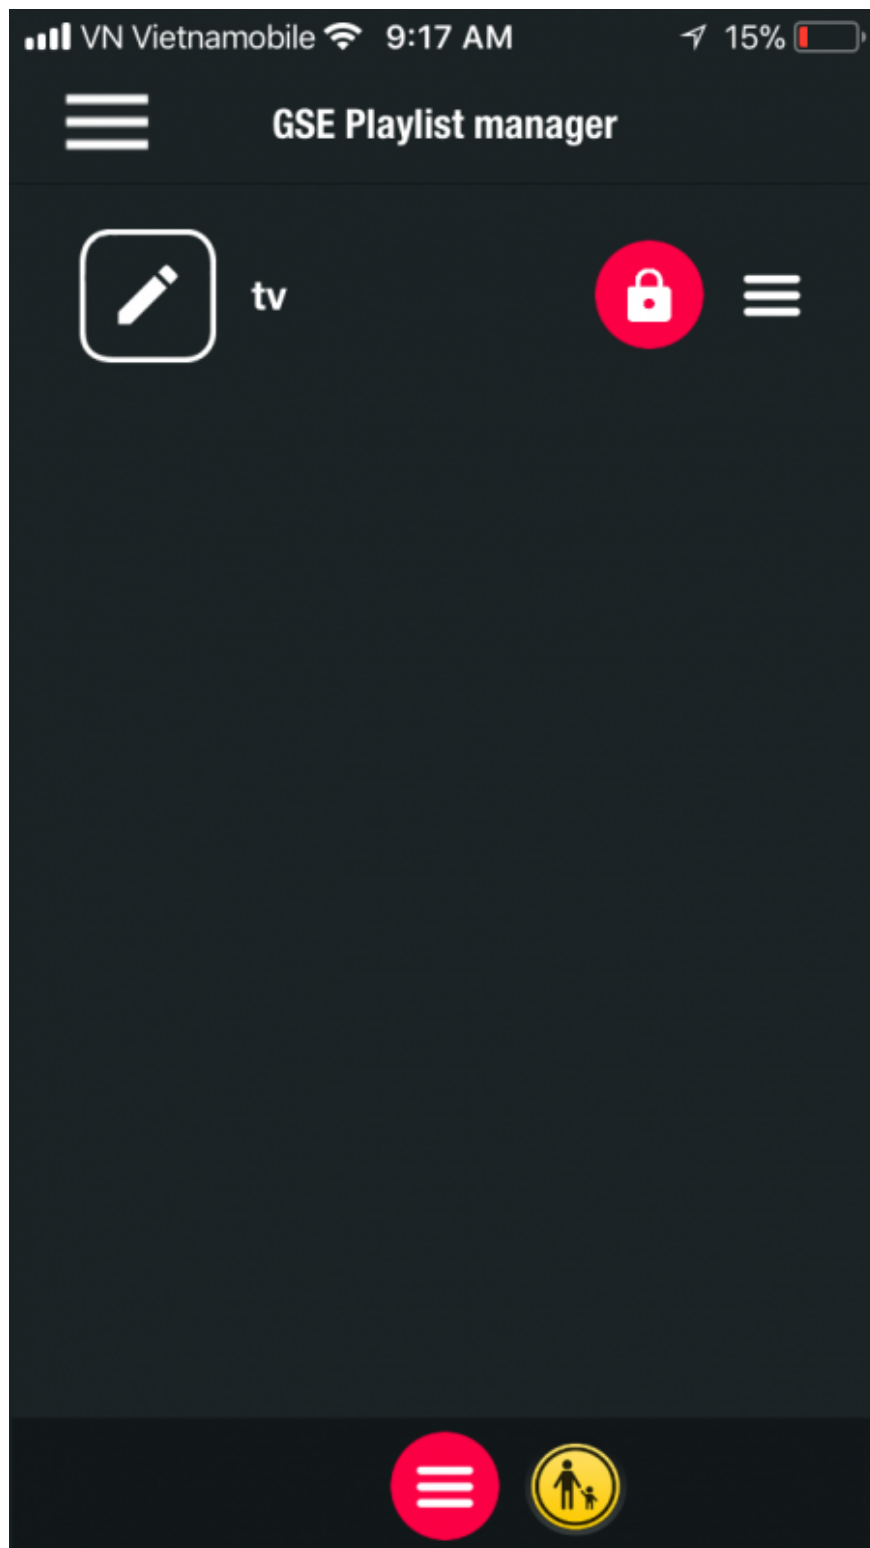

Step 4 : After GSE Smart IPTV successfully downloaded. You click on the channel you want to watch and enjoy.

Note : next to the pink menu button in step 3 there is also a Parental Control button, which helps you set a password for the list in case you don't want others to see it.

List of several channel lists to add to the application:

Miscellaneous channel on TV:

1. <https://anonyviet.com/php/tivi/kenh.txt>
