

# Not yet launched, OPPO Find X2 Lite has revealed all specifications and price

Find X2 Lite will be OPPO's next mid-range 5G smartphone, and also a shortened version of the Find X2 and Find X2 Pro flagship.

OPPO is preparing to launch a new mid-range smartphone called Find X2 Lite. This is considered a shortened version of the flagship Find X2 that the company introduced earlier this month. Despite having a 120Hz screen cut, the Find X2 Lite will still support 5G networking thanks to the Snapdragon 765G processor.
